# Management Discussion and Analysis

## BUSINESS OVERVIEW

Flat Glass Group Co., Ltd. (the “Company”) and its subsidiaries (together with the Company, the “Group”) are principally engaged in the manufacturing and sales of various glass products, including PV glass, float glass, architectural glass and household glass. The production facilities of the Group are strategically located in Jiaxing, Zhejiang Province, Fengyang County, Chuzhou, Anhui Province in the PRC and Haiphong, Vietnam. The Group mainly sells glass products to customers in areas including China, Korea, India, Germany, Turkey, the United States and Southeast Asia.

## SHARE SCHEMES OF THE COMPANY

### 2020 Restricted A Share Incentive Scheme

On 29 June 2020, the shareholders of the Company approved a restricted A share incentive scheme (the “2020 Incentive Scheme”). The principal terms of the 2020 Incentive Scheme are as follows:

#### *a. The purpose of the 2020 Incentive Scheme*

For the purpose of further improving the corporate governance structure, establishing and improving the Company’s long-term incentive and restraint mechanism, attracting and retaining senior and middle management and key technical staff, fully mobilizing their enthusiasm, effectively enhancing the cohesion of core team and core competitiveness of the enterprise, bonding the interests of shareholders, the Company and core teams together effectively, enabling all parties to jointly pay attention to the long-term development of the Company and securing the successful achievement of the Company’s long-term development goals and business objectives, and under the premise of fully safeguarding the interests of the shareholders, the 2020 Incentive Scheme is prepared following the principle of reciprocity between revenue and contribution in accordance with the relevant laws, regulations and normative documents including the Company Law of the PRC, the Securities Law of the PRC and the Assessment Management Measures for the Implementation of the Restricted A Share Incentive Scheme for 2020 of the Company, the Rules Governing the Listing of Securities (the “Listing Rules”) on The Stock Exchange of Hong Kong Limited (the “Hong Kong Stock Exchange”), as well as the Articles of Association.

***b. The participants of the 2020 Incentive Scheme***

The participants of the 2020 Incentive Scheme include the senior and middle management and key technical staff of the Company (including its subsidiaries).

***c. The total number of Shares available for issue***

6,000,000 restricted A Shares are proposed to be granted under the 2020 Incentive Scheme, representing 0.31% of the Company's total share capital of 1,950,000,000 Shares as at 29 June 2020, including 5,000,000 A Shares under the first grant, representing 0.26% of the Company's total share capital as at 29 June 2020 and 83.33% of the total restricted shares to be granted under the 2020 Incentive Scheme; and 1,000,000 reserved A Shares, representing 0.05% of the Company's total share capital as at 29 June 2020 and 16.67% of the total restricted shares to be granted under the 2020 Incentive Scheme.

There are no shares available for issue under the 2020 Incentive Scheme as at the date of the 2024 interim results announcement.

***d. The maximum entitlement of each participant***

The total number of A Shares to be granted to any participant under all the fully effective share incentive schemes of the Company shall not exceed 1.00% of the total share capital of the Company.

***e. The remaining life of the 2020 Incentive Scheme***

The validity period of the 2020 Incentive Scheme shall commence on the grant date and end on the date when all the restricted shares are unlocked or otherwise repurchased and cancelled, which shall not be longer than 72 months. As at 30 June 2024, the remaining life of the first granted shares of the 2020 Incentive Scheme and the reserved granted shares of the 2020 Incentive Scheme shall be 26 months and 35 months, respectively.

Details of the restricted shares granted under the 2020 Incentive Scheme during the six months ended 30 June 2024 are set out below:

Category of participants	Date of grant	Lock-up period	Grant price (RMB)	Number of Restricted Shares					As at 30 June 2024
				As at 1 January 2024	Granted during the period	Attributed during the period	Cancelled during the period	Lapsed during the period	
15 Employees	11 August 2020	Notes 1, 3	6.23 (Note 5)	1,840,000	Nil	Nil	Nil	Nil	1,840,000
3 Employees	25 May 2021	Notes 2, 3	14.23 (Note 6)	420,000	Nil	140,000	Nil	Nil	280,000
<b>Total</b>				<b>2,260,000</b>	<b>Nil</b>	<b>140,000</b>	<b>Nil</b>	<b>Nil</b>	<b>2,120,000</b>
						(Note 4)			

Notes:

- The unlocking arrangement for the restricted shares under the first grant of the 2020 Incentive Scheme is shown in the table below:

Unlocking arrangement	Unlocking Period	Unlocking proportion
First Unlocking Period	Commencing from the first trading day upon the expiry of 12 months from the grant date of the first grant of the restricted shares to the last trading day upon the expiry of 24 months from the grant date of the first grant of the restricted shares	20%
Second Unlocking Period	Commencing from the first trading day upon the expiry of 24 months from the grant date of the first grant of the restricted shares to the last trading day upon the expiry of 36 months from the grant date of the first grant of the restricted shares	20%
Third Unlocking Period	Commencing from the first trading day upon the expiry of 36 months from the grant date of the first grant of the restricted shares to the last trading day upon the expiry of 48 months from the grant date of the first grant of the restricted shares	20%
Fourth Unlocking Period	Commencing from the first trading day upon the expiry of 48 months from the grant date of the first grant of the restricted shares to the last trading day upon the expiry of 60 months from the grant date of the first grant of the restricted shares	20%
Fifth Unlocking Period	Commencing from the first trading day upon the expiry of 60 months from the grant date of the first grant of the restricted shares to the last trading day upon the expiry of 72 months from the grant date of the first grant of the restricted shares	20%

2. The unlocking arrangement for the reserved restricted shares is shown in the table below:

<b>Unlocking arrangement</b>	<b>Unlocking Period</b>	<b>Unlocking proportion</b>
First Unlocking Period	Commencing from the first trading day upon the expiry of 12 months from the grant date of the reserved restricted shares to the last trading day upon the expiry of 24 months from the grant date of the reserved restricted shares	20%
Second Unlocking Period	Commencing from the first trading day upon the expiry of 24 months from the grant date of the reserved restricted shares to the last trading day upon the expiry of 36 months from the grant date of the reserved restricted shares	20%
Third Unlocking Period	Commencing from the first trading day upon the expiry of 36 months from the grant date of the reserved restricted shares to the last trading day upon the expiry of 48 months from the grant date of the reserved restricted shares	20%
Fourth Unlocking Period	Commencing from the first trading day upon the expiry of 48 months from the grant date of the reserved restricted shares to the last trading day upon the expiry of 60 months from the grant date of the reserved restricted shares	20%
Fifth Unlocking Period	Commencing from the first trading day upon the expiry of 60 months from the grant date of the reserved restricted shares to the last trading day upon the expiry of 72 months from the grant date of the reserved restricted shares	20%

3. For the restricted shares that have not been applied for unlocking or cannot be applied for unlocking due to failure to meet the unlocking conditions during the aforesaid unlocking periods, the Company will repurchase and cancel such restricted shares from relevant participants in accordance with the principles of the 2020 Incentive Scheme. If the unlocking conditions are satisfied, the Company shall handle the unlocking of the restricted shares which satisfied the conditions at its discretion. Please refer to the circular of the Company dated 27 May 2020 for details of the unlocking conditions under the 2020 Incentive Scheme.
4. The weighted average closing price of the shares immediately before the dates on which the restricted shares were vested is RMB23.39.
5. With reference to the relevant requirements under the Management Measures for Share Incentive Scheme Adopted by Listed Companies (上市公司股權激勵管理辦法) issued by the CSRC, the grant price of the restricted shares under the first grant shall not be lower than the par value of the Shares, and shall be the higher of the following:
- (1) 50% of the average trading price of the Shares of the Company for the last trading day immediately preceding the date of the 2020 Incentive Scheme draft, being RMB6.23 per share;
  - (2) 50% of the average trading price of the Shares of the Company for the last 20 trading days immediately preceding the date of the 2020 Incentive Scheme draft, being RMB5.75 per share.

6. Before each grant of the reserved restricted shares, the Company shall hold a meeting of the board of directors (the “Board”) to pass the relevant resolution, and shall disclose an announcement on such grant. With reference to the relevant requirements under the Management Measures for Share Incentive Scheme Adopted by Listed Companies (上市公司股權激勵管理辦法) issued by the CSRC, the grant price of the reserved restricted shares shall not be lower than the par value of the Shares, and shall be the higher of the following:

- (1) 50% of the average trading price of the Shares of the Company for the last trading day immediately preceding the date of Board meeting relating to the grant of the reserved restricted shares;
- (2) 50% of the average trading price of the Shares of the Company for the last 20 trading days immediately preceding the date of Board meeting relating to the grant of the reserved restricted shares.

On 25 May 2021, the Company hold the second meeting of the sixth Board to consider and approve the Proposal on the Reserved Grant of the Restricted A Shares to Participants. Pursuant to which, the Company agreed to grant 700,000 restricted A shares to three participants, at the grant price of RMB 14.23 per share on the grant date of 25 May 2021.

The number of restricted shares available for grant under the 2020 Incentive Scheme at 1 January 2024 and 30 June 2024 is nil and nil, respectively. There is no service provider sublimit under the 2020 Incentive Scheme.

The Remuneration Committee is responsible for drafting and revising the 2020 Incentive Scheme and submitting the same to the Board for consideration. During the six months ended 30 June 2024, the Remuneration Committee reviewed the unlocking applications of the third tranche of 20% of the reserved restricted shares granted under the 2020 Incentive Scheme. Having considered that the unlocking conditions as stipulated under the 2020 Incentive Scheme have been fully satisfied, the Remuneration Committee approved such unlocking arrangement and the shares were fully vested. The Remuneration Committee and the Board are of the view that the arrangement is appropriate considering that the unlocking of the granted restricted shares acts as a means for the Company to reward the grantees’ past contributions to the Group and incentivise the grantees to continuously contribute to the operation, development and long-term growth of the Group, which is in line with the purpose of the 2020 Incentive Scheme.

## **2021 A Share Option Incentive Scheme**

On 17 August 2021, the Company announced the plan to implement an A share option incentive scheme (the “2021 A Share Option Scheme”).

The principal terms of the 2021 A Share Option Scheme are as follows:

### ***a. Purpose of the 2021 A Share Option Scheme***

As incentive or rewards to eligible participants for their contribution to the Company to further improve the corporate governance structure of the Company, establish and enhance the long-term incentive and constraint mechanism of the Company, attract and retain talents, fully mobilize the proactiveness and creativities of the senior and mid-level management and technical personnel of the Company, effectively promote the cohesiveness of the core team and the core competitiveness of the enterprise, effectively align the interests of shareholders, the Company and the core management team, enabling all parties to focus on the long-term development of the Company, and ensure the achievements of the development strategies and operation objectives of the Company.

### ***b. Eligible participants of the 2021 A Share Option Scheme***

Participants of the 2021 A Share Option Scheme are the senior and mid-level management and technical personnel of the Company (including subsidiaries) as at the date of the announcement of the 2021 A Share Option Scheme published on the website of the Shanghai Stock Exchange. The Remuneration Committee prepared a list of eligible scope of the participants of the 2021 A Share Option Scheme and the list was reviewed and confirmed by the Supervisory Committee. None of the participants of the 2021 A Share Option Scheme is a Director or supervisor of the Company.

**c. *Total number of Shares available for issue under the 2021 A Share Option Scheme and percentage to the issued share capital***

The number of share options proposed to be granted under the 2021 A Share Option Scheme is 5,947,858, representing approximately 0.28% of the total issued share capital of 2,146,893,254 Shares (excluding treasury shares) as at the date of approval, among which, the first grant of share options consists of 5,353,072 Shares (the “First Grant”), representing approximately 0.25% of the total issued share capital of 2,146,893,254 Shares as at the date of approval and 90% of the total number of share options under the grant; the reserved share options consist of 594,786 Shares, representing approximately 0.03% of the total issued share capital of 2,146,893,254 Shares as at the date of approval and 10% of the total number of share options under the grant.

The total number of shares available for issue under the 2021 A Share Option Scheme is 4,196,378, being 0.18% of the issued shares as at 30 June 2024.

**d. *Maximum entitlement of each participant under the 2021 A Share Option Scheme***

The total number of Shares to be granted under the 2021 A Share Option Scheme to any one of the above participants during the validity period will not exceed 1.00% of the Company’s total share capital. The total number of target shares involved in the 2021 A Share Option Scheme during the validity period will not exceed 10.00% of the total share capital of the Company when the 2021 A Share Option Scheme was submitted to the shareholders’ general meeting. The reserved share options shall not exceed 20.00% of the total share options available under the 2021 A Share Option Scheme. If the participants voluntarily waive the benefits granted due to personal reasons, the Board shall make corresponding adjustments to the number of shares options granted.

**e. *The minimum period for which an option must be held before it can be exercised***

Upon the fulfillment of conditions of the exercise of the share options under the 2021 A Share Option Scheme, the granted share options are exercisable in five tranches upon expiry of 12 months from the Date of Grant.

***f. The amount payable on acceptance of the option and the period within which payments must be made***

There is no amount payable on application or acceptance of the option and there is no time requirement for which payments must or may be made.

***g. The remaining life of the 2021 A Share Option Scheme***

The validity period of the 2021 A Share Option Scheme commenced from the grant date of the share options i.e. 19 November 2021 and shall end on the date on which all the share options granted to the participants under the 2021 A Share Option Scheme have been exercised or cancelled, and shall not be longer than 72 months. As at 30 June 2024, the remaining life of the granted share options under the 2021 A Share Option Scheme shall be 41 months.

***h. Accounting policy adopted for the share options***

The date of the grant is 19 November 2021. On each balance sheet date within the vesting period, the Company shall recognize the relevant assets costs or current expenses for the services acquired during such period and shall be recognized under “Capital Reserve – Other Capital Reserve” at the fair value of the share options on the Date of Grant based on the best estimate of the number of exercisable share options.

If the exercise conditions are met on the Exercise Date, the share options can be exercised and carried forward to the “Capital Reserve – Other Capital Reserve” recognized on each balance sheet date before the Exercise Date; if all or part of the share options become invalid or are abolished due to failure to exercise, it shall be treated in accordance with accounting standards and related regulations.

As for the accounting treatment after the exercise date, no adjustment shall be made to the confirmed costs and total owner’s equity.

In accordance with the relevant requirements of the Accounting Standards for Business Enterprises No. 11 – Share-based Payments (企業會計準則第11號 – 股份支付) and the Accounting Standards for Business Enterprises No. 22 – Recognition and Measurement of Financial Instruments (企業會計準則第22號 – 金融工具確認和計量), the Company uses the Black-Scholes model (BS model) as the pricing model, and the Company uses this model to make an estimation on the fair value of the share options granted based on 17 August 2021 (official calculation will be conducted at the time of grant). The specific parameters are selected as follows:

- (i) Price of target shares: RMB42.89 per share (closing price on 17 August 2021)
- (ii) Validity Period: 1 year, 2 years, 3 years, 4 years and 5 years, respectively (period commencing from Date of Grant and ending on the first date of exercise for each respective period)
- (iii) Historic volatility: 14.73%, 17.44%, 18.71%, 17.92% and 16.55% (annualized volatility for the corresponding period of SSE Composite Index)
- (iv) Risk-free interest rate: 1.50%, 2.10% and 2.75% (based on one-year, two-year, three-year, three-year and above RMB deposit benchmark interest rate, respectively, of financial institutes developed by the People’s Bank of China)

As at 30 June 2024, the details of movement in share options granted under the 2021 A Share Option Scheme are as follows:

Grantees	Date of grant	Exercise price (RMB)	Exercise period and exercisable portion of the share options granted	Vesting schedule of the share options granted	Number of share options					Outstanding as at 30 June 2024
					Outstanding as at 1 January 2024	Granted during the period	Exercised during the period	Cancelled during the period	Lapsed during the period	
Mr. Zhu Yuping <sup>Note 1</sup>	19 November 2021	43.79 <sup>Note 2</sup>	Note 3	Note 4	32,000	Nil	Nil	Nil	Nil	32,000
Other 282 Employees	19 November 2021	43.79 <sup>Note 2</sup>	Note 3	Note 4	4,164,378	Nil	Nil	Nil	Nil	4,164,378
<b>Total</b>					<u>4,196,378</u>	-	-	-	-	<u>4,196,378</u>

Notes:

1. Mr. Zhu Yuping (祝宇平) is the son of Mr. Zhu Quanming (祝全明), a supervisor of the Company thus a connected person of the Company.
2. The exercise price under the First Grant of share options is RMB44.02 per share. According to the relevant provisions of the Measures for the Management of Equity Incentives for Listed Companies (《上市公司股权激励管理辦法》) and the 2021 A Share Option Incentive Scheme of Flat Glass Group Co., Ltd. (《福萊特玻璃集團股份有限公司2021年A股股票期權激勵計劃》), in the event of capitalization of capital reserves, bonus issue, dividend distribution, subdivision or consolidation of Shares, rights issue, etc. of the Company during the period from the date of the announcement of the 2021 A Share Option Scheme to the completion of share registration of share options by the Participants, the exercise price and the total number of underlying shares involved would be adjusted in accordance with the 2021 A Share Option Scheme, and any adjustment shall not be less than the nominal value of the shares. The Company has paid an interim dividend of RMB0.23 per ordinary share (before tax) for 2022 to all shareholders on 23 November 2022. Therefore, the exercise price shall be adjusted to RMB43.79 per share.
3. Upon the fulfillment of conditions of the exercise of the share options under the 2021 A Share Option Scheme, the share options granted are exercisable in five tranches upon expiry of 12 months from 19 November 2021 (“Date of Grant”).

The exercise arrangement for the First Grant of share options under the 2021 A Share Option Scheme is as follows:

<b>Exercise Arrangement</b>	<b>Exercise Period</b>	<b>Proportion of exercisable share options to the total number of share options granted</b>
First Exercise Period	Commencing from the first trading day after the expiry of the 12th month from the Date of Grant of the First Grant of share options, and ending on the last trading day of the 24th month from the Date of Grant	20%
Second Exercise Period	Commencing from the first trading day after the expiry of the 24th month from the Date of Grant of the First Grant of share options, and ending on the last trading day of the 36th month from the Date of Grant	20%
Third Exercise Period	Commencing from the first trading day after the expiry of the 36th month from the Date of Grant of the First Grant of share options, and ending on the last trading day of the 48th month from the Date of Grant	20%
Fourth Exercise Period	Commencing from the first trading day after the expiry of the 48th month from the Date of Grant of the First Grant of share options, and ending on the last trading day of the 60th month from the Date of Grant	20%
Fifth Exercise Period	Commencing from the first trading day after the expiry of the 60th month from the Date of Grant of the First Grant of share options, and ending on the last trading day of the 72th month from the Date of Grant	20%

4. All share options granted to the participants are subject to different vesting periods, and each of them commences on the date on which the registration of the grant of share options is completed. The interval between the Date of Grant and the first exercise date shall not be less than 12 months.

The participants of the 2021 A Share Option Scheme may exercise share options upon the expiration of the vesting period. The exercise date must be a trading day within the validity period of the 2021 A Share Option scheme, and shall not fall within the period prohibited from exercising rights of share options by the listing rules of the stock exchange where the Shares are listed.

The number of options available for grant under the 2021 A Share Option Scheme at 1 January 2024 and 30 June 2024 is nil and nil, respectively. There is no service provider submit under the 2021 A Share Option Scheme.

As at 30 June 2024, the number of shares that may be issued in respect of options and awards granted under all schemes of the Company divided by the weighted average number of shares in issue (excluding treasury shares) for the year is 0.18%.

## **INDUSTRY OVERVIEW**

### **Industry Review**

#### ***Global PV installation demand maintained a steady growth***

It is an essential strategy to promote the green and low-carbon transformation of the whole society, and the development of PV industry. In August 2024, the CPC Central Committee and the State Council issued the Guidelines To Ramp Up Green Transition In All Areas Of Economic And Social Development, which reemphasized the importance to vigorously develop non-fossil energy. By 2030, the proportion of non-fossil energy will increase to around 25% of energy consumption. Based on the consistent policies and directions, in the first half of 2024, China's new PV installed capacity reached 102.48GW, representing an increase of 30.7% year-on-year.

China remained the world's largest market for PV installations. In addition, the new PV installations also showed a growth in Europe, the US, India and the Middle East.

### ***Rising trade barriers inhibited short-term demand***

Facing intensified competition in PV industry chain in China, major enterprises adopted a going global strategy to distribute the production capacity into Southeast Asia, India, the Middle East, the US and other regions, thereby participating in a more in-depth global collaboration of PV industry chain. In this case, PV products from Southeast Asia became the key objects of the double-reverse investigation by the US. On 14 May 2024, the US announced to raise tariffs on US\$18 billion of imports from China, including an increase in tariffs on PV modules and PV batteries from 25% to 50%. In addition, from 6 June 2024, tariffs were reinstated on solar products from Cambodia, Malaysia, Thailand and Vietnam, and the installations were required to be completed within six months. These trade protection policies caused a reduction in production capacity and even shut-down in Southeast Asia. Undoubtedly, such policies affected PV installation demand in the short term, which in turn affected PV glass demand.

### ***Industry supply chain continued to increase supply***

In the first half of 2024, PV industry experienced a series of changes and challenges in China. Overall, the PV industry chain greatly improved production capacity. Specifically, in the first half of the year, the national production of polysilicon, silicon wafers, cells and modules each increased by more than 30% year-on-year. The exports of silicon wafers, cells and modules increased by 34.5%, 32.1% and 19.7% year-on year, respectively.

The past few years saw a rapid growth in demand for PV glass, which was used for modules as necessary auxiliary materials. In 2022, the drive for production expansion of PV glass reached its peak, and the main projects were ignited for implementation. From 2023, the overall growth rate slowed down. However, in the first half of this year, the production capacity continued to increase, the new kilns of PV glass with a daily melting capacity of over 17,000 tons were put into production.

### ***Demand and supply mismatch triggered a price drop and accelerated cold repair***

In the PV supply side, the intensified competition caused the production capacity growth exceeding the demand, which triggered an irrational price drop in the industry chain. According to data from the China Photovoltaic Industry Association, in the first half of 2024, polysilicon and silicon wafer prices fell by more than 40%, and cell and module prices fell by more than 15%. PV glass price tumbled after a slight rebound in April and May. Up to now, 2.0mm glass price has fallen by more than 20%. Given the price drop, the profit margins of the whole industry have been severely squeezed.

In line with the narrowing of profit margins, and even some enterprises operating at a loss, PV glass's production capacity, especially the small scale and long useful life production capacity accelerated cold repair. According to statistics, up to now, the industry has cold repaired more than 10,000 tons of production capacity. Meanwhile, taking into account the profitability, approval policies and financing costs, many new investment projects have been terminated or postponed.

## Future Prospect

### *Steadily expand production with continuous cost decreasing and efficiency increasing*

As of 30 June 2024, the Group's total production capacity reached 23,000 tons/day, including 2,600 tons/day already finished cold repair. Currently, all of Anhui and Nantong projects in China and overseas project are advancing normally. Subsequently, the time for project implementation will depend on the project construction progress and market situation.

In the Group's existing production lines, large kilns with a capacity of 1,000 tons and above account for more than 90%. Compared to small kilns, large kilns boost their more stable combustion and temperature, lower unit consumption, and increasingly higher rate of finished products. Therefore, on the basis of the existing scale, the Group will independently develop and make breakthroughs in technical bottleneck of large kilns, thereby further reducing costs and strengthening the competitive advantage in the PV glass industry.

In the future, leveraging its customer base as well as advantages in scale, resource and technology, the Company will adhere to sound operation, striving to maintain a leading position in the industry.

Nowadays, while facing various challenges, new supply gradually becomes rational and outdated production capacity gradually becomes obsolete. After fluctuations and throes in the short term, the PV industry will regain new vitality.

## FINANCIAL REVIEW

For the six months ended 30 June 2024, the industry faced great challenges in development in line with intensified competition and cyclical imbalance between supply and demand, due to a substantial increase in the new production capacity of the PV industry as well as the limitation of rapid growth in the demand-side by trade barriers and domestic absorption problems. In this context, the Group recorded a growth in operating income, benefiting from the continuous growth of demand in the PV glass market and the release of new production capacity. For the six months ended 30 June 2024, the amounts of operating revenue of the Group were RMB10,696.0 million, which increased by 10.51% as compared to the same period of 2023 of RMB9,678.4 million. In the first half of the year, the price of PV glass dropped due to the abundant supply in the industry. However, the adverse impact arising from such decrease in the average price of PV glass was offset by the increase in sales, implementation of measures on cost decreasing and efficiency increasing, and the decrease in costs of raw materials and energy. The net profit of the Group for the six months ended 30 June 2024 was RMB1,500.3 million, representing an increase of 38.23% as compared to the same period of 2023 of RMB1,085.4 million.

## Revenue

The following table sets out the breakdown of revenue of the Group by product type and geographical location:

Product type	Six months ended 30 June 2024		Six months ended 30 June 2023	
	RMB'000	(%)	RMB'000	(%)
PV glass	9,659,149.14	90.31	8,786,856.98	90.79
Float glass	182,678.03	1.71	171,486.28	1.77
Household glass	145,035.85	1.36	153,739.44	1.59
Architectural glass	237,702.85	2.22	262,976.21	2.72
Mineral products	264,539.55	2.47	272,461.91	2.82
Other business	206,890.07	1.93	30,902.53	0.31
Total	<u>10,695,995.49</u>	<u>100.00</u>	<u>9,678,423.35</u>	<u>100.00</u>

Location	Six months ended 30 June 2024	Six months ended 30 June 2023
	RMB'000	RMB'000
Mainland China	8,252,330.12	7,519,092.24
Other countries in Asia (exclude China)	1,845,066.17	1,931,373.41
Europe	74,955.13	117,265.25
North America	514,863.69	102,983.24
Others	8,780.38	7,709.21
Total	<u>10,695,995.49</u>	<u>9,678,423.35</u>

For the six months ended 30 June 2024, the revenue of sales of the Group amounted to RMB10,696.0 million, increased by 10.51% as compared with the same period of 2023 of RMB9,678.4 million. Among them, the revenue of sales of PV glass amounted to RMB9,659.1 million, increased by 9.93% as compared with the same period of 2023 of RMB8,786.9 million, mainly due to the increase in sales volume resulted from the release of new production capacity of PV glass, which was partially offset by the decrease in average sales price. In terms of sales location, for the six months ended 30 June 2024, the sales revenue in Mainland China amounted to RMB8,252.3 million, increased by 9.75% as compared with the same period of 2023 of RMB7,519.1 million; overseas sales revenue amounted to RMB2,443.7 million, increased by 13.17% as compared with the same period of 2023 of RMB2,159.3 million. In the first half of 2024, the increase in overseas sales revenue was higher than sales revenue in Mainland China.

### **Operating Costs**

The operating costs of the Group for the six months ended 30 June 2024 was RMB8,152.1 million, representing an increase of 4.14% as compared to the operating costs of RMB7,828.0 million for the same period of 2023. The increase was mainly due to the increase in sales volume of PV glass, but such increase was partly offset by the decrease in costs of certain raw materials and energy.

### **Gross Profit And Gross Profit Margin**

The gross profit of the Group for the six months ended 30 June 2024 was RMB2,543.9 million, representing an increase of 37.48% from RMB1,850.4 million in the same period of last year. The gross profit margin of the Group for the six months ended 30 June 2024 was 23.78%, representing an increase of 4.66 percentage points from the gross profit margin of 19.12% in the same period of last year. The increase in gross margin was mainly due to the increase in gross margin of PV glass. The main reasons are as follows: 1. the average selling price of PV glass decreased as compared with the same period last year, due to the increase of supply of industry capacity supply and the competition intensified, but such impact was partly offset by the decrease in costs of certain raw materials and energy; 2. the Group is committed to improving the process and efficiency to achieve cost decreasing and benefit increasing, and making up for part of pressure from the rising cost, so as to maintain the industry competitiveness.

On the other hand, in the first half of this year, the sales price of float glass was basically flat compared with the same period of last year, but the average costs of raw materials and energy decreased. Therefore, the overall gross profits increased to a certain extent as the gross profits of float glass turned from negative to positive in the first half of this year.

The following table sets out gross profit of main products of the Group:

Production type	Six months ended 30 June 2024		Six months ended 30 June 2023	
	Gross profit RMB'000	Gross profit margin (%)	Gross profit RMB'000	Gross profit margin (%)
PV glass	2,386,120.90	24.70	1,758,944.10	20.02
Float glass	3,913.03	2.14	-44,938.19	-26.21
Household glass	19,266.79	13.28	11,726.28	7.63
Architectural glass	20,466.68	8.61	19,657.80	7.48
Mineral products	52,230.79	19.74	80,080.42	29.39
Other business	61,890.80	29.91	24,950.78	80.74
Total	<u>2,543,888.99</u>	<u>23.78</u>	<u>1,850,421.19</u>	<u>19.12</u>

### Sales Expenses

For the six months ended 30 June 2024, the sales expenses amounted to RMB37.1 million, representing a decrease of 9.84% from RMB41.2 million for the six months ended 30 June 2023. The decrease was mainly due to the impact of increase in sales volume of PV glass, which was offset by the improvement in the utilization efficiency of iron pallets of the Group.

### Administrative Expenses

For the six months ended 30 June 2024, the administrative expenses of the Group were RMB146.6 million, representing an increase of 21.61% from RMB120.5 million for the six months ended 30 June 2023. The increase was mainly due to the increase in administration related expenses as a result of the rapid development of the Group.

## **Research And Development Costs**

For the six months ended 30 June 2024, the research and development costs of the Group were RMB325.8 million, representing an increase of 13.70% from RMB286.5 million for the six months ended 30 June 2023. The increase was mainly due to the increase of research and development projects, including the self-developed equipment to optimize production processes and ultra-thin, ultra-transparent, aesthetic glass and other technologies.

## **Financial Costs**

For the six months ended 30 June 2024, the financial costs of the Group amounted to RMB187.2 million, representing an increase of 19.58% from RMB156.5 million for the six months ended 30 June 2023. The increase was mainly due to the decrease in exchange gain.

## **Income Tax Expense**

For the six months ended 30 June 2024, the income tax expenses of the Group amounted to RMB211.8 million, representing an increase of 113.73% from RMB99.1 million for the six months ended 30 June 2023. The increase was mainly due to the increase in total profits and the decrease in preferential tax policies for subsidiaries.

## **EBITDA And Net Profit**

For the six months ended 30 June 2024, the EBITDA of the Group (earnings before interests, taxes, depreciation and amortization) increased by RMB724.6 million from RMB2,287.8 million for the six months ended 30 June 2023 to RMB3,012.4 million. The Group's EBITDA margin was 28.16% for the six months ended 30 June 2024 as compared with 23.64% for the same period of 2023.

For the six months ended 30 June 2024, the net profit increased by RMB414.9million from RMB1,085.4 million for the same period of 2023 to RMB1,500.3 million.

## **Assets And Equity**

As at 30 June 2024, the total assets amounted to RMB44,689.6 million, which increased by RMB1,707.6 million, or 3.97% from RMB42,982.0 million as at 31 December 2023. As at 30 June 2024, the shareholders' equity amounted to RMB22,543.2 million, which increased by RMB252.3 million, or 1.13% from RMB22,290.9 million as at 31 December 2023.

## **FINANCIAL RESOURCES AND LIQUIDITY**

As at 30 June 2024, the current ratio was 1.65 as compared with 1.83 as at 31 December 2023.

For the six months ended 30 June 2024, the Group's main sources of funding were cash from operating activities and credit financing provided by banks.

## **ASSET-LIABILITY RATIO**

As at 30 June 2024, the Group's asset-liability ratio (asset-liability ratio equals to total debt divided by total asset as of the end of the year or period multiplied by 100%) was 49.56%, increased by 1.42 percentage as compared to 48.14% as at 31 December 2023.

## **CAPITAL EXPENDITURES**

As at 30 June 2024, total capital expenditures of the Group amounted to approximately RMB2,612.1 million (as at 30 June 2023: RMB1,706.6 million), involving the purchase of fixed assets, construction in progress and intangible assets for PV glass projects.

## **EMPLOYEE AND REMUNERATION POLICY**

As at 30 June 2024, the Group employed a total of 8,787 employees and most of them were based in the PRC, with a total employee remuneration amounting to RMB481.2 million for the six months ended 30 June 2024, representing 4.50% of the Group's operating revenue for the same period.

The Group maintains a good relationship with its employees and provides training to its employees. New joiners must attend mandatory in-house training. Furthermore, employees may attend external training such as training for manufacturing management, quality control management and human resources management. Remuneration of employees is reviewed periodically by reference to the market rate. After considering performance of the Group and job performance of specific employees, the Group may pay them a discretionary bonus.

The Group makes contributions for its employees in the PRC in relation to the mandatory social security funds including pension, work-related injury insurance, maternity insurance, medical and unemployment insurance and housing provident fund contributions.

## **CREDIT RISK AND FOREIGN EXCHANGE RISK**

Transactions of the Group are mainly settled in RMB, United States dollars, Hong Kong dollars, Vietnam Dong and Japanese yen, whereas, the Group's operating activities are mainly located in the PRC. Bank financing of the Group was settled in RMB and United States dollars for the six months ended 30 June 2024 with annual interest rates ranging from 1.85% to 6.88%. As the Group's trading currency of global certain sales, procurement and financing are not in the RMB but in foreign currencies, the Group is exposed to foreign exchange risk. For the six months ended 30 June 2024, such risks did not have any material impact on the financial performance of the Group.

## **CAPITAL STRUCTURE**

As at 30 June 2024, the Company issued a total of 2,351,324,281 Shares, comprising of 1,901,324,281 A Shares (8,250,600 A Shares were held as treasury shares) and 450,000,000 H Shares.

## **SIGNIFICANT INVESTMENT AND MATERIAL ACQUISITION OR DISPOSAL OF SUBSIDIARIES, ASSOCIATES AND JOINT VENTURES**

There were no significant investments held as at 30 June 2024, no material acquisitions or disposals of subsidiaries, associates and joint ventures during the six months ended 30 June 2024, nor was there any plan authorised by the Board for other material investments or additions of capital assets at the date of the 2024 interim results announcement.

# Corporate Governance and Other Information

## COMPLIANCE WITH CORPORATE GOVERNANCE CODE

In the opinion of the Board, the Company had complied with the code provisions in the Corporate Governance Code as set forth in Appendix C1 to the Listing Rules on the Hong Kong Stock Exchange during the period from 1 January 2024 to 30 June 2024.

## MODEL CODE FOR SECURITIES TRANSACTIONS BY DIRECTORS AND SUPERVISORS

The Company has adopted the Model Code for Securities Transaction by Directors of Listed Issuers (the “Model Code”) as set out in Appendix C3 to the Listing Rules as the code of conduct regarding securities transactions by the directors (the “**Directors**”) and supervisors of the Company. Directors and supervisors of the Company are reminded of their obligations under the Model Code on a regular basis. Following specific enquiries by the Group, all of the Directors and supervisors of the Company have confirmed that they had complied with the required standard set out in the Model Code throughout the period from 1 January 2024 to 30 June 2024.

## INTERESTS AND SHORT POSITIONS OF DIRECTORS, SUPERVISORS AND CHIEF EXECUTIVES

As at 30 June 2024, the interests and short positions of Directors, supervisors and chief executives of the Company in the shares, underlying shares or debentures of the Company and its associated corporations (within the meaning of Part XV of the Securities and Futures Ordinance (the “SFO”), as recorded in the register required to be kept by the Company pursuant to section 352 of the SFO; or as otherwise notified to the Company and the Hong Kong Stock Exchange pursuant to the Divisions 7 and 8 of Part XV of the SFO (including interest or short position which the Directors, supervisors or the chief executive were taken or deemed to have under such provisions) and the Model Code contained in the Listing Rules, were as follows:

Shareholder	Number of shares held	Class	Nature of interest	Approximate percentage of shareholding in the relevant class of shares <sup>(1)</sup>	Approximate percentage of shareholding in the total share capital of the Company <sup>(2)</sup>
<b>Directors</b>					
Mr. Ruan Hongliang <sup>(3)</sup>	1,083,445,543 (L)	A shares	Beneficial owner and parties acting in concert	56.98%	46.08%
	38,610,682 (S)	A shares		2.03%	1.64%
	2,799,000 (L)	H shares		0.62%	0.12%
Ms. Jiang Jinhua <sup>(3)</sup>	1,083,445,543 (L)	A shares	Beneficial owner and parties acting in concert	56.98%	46.08%

	5,500,000 (S)	A shares	Beneficial owner	0.29%	0.23%

Notes:

- (1) The calculation is based on the total number of 1,901,324,281 A Shares or 450,000,000 H Shares of the Company in issue as at 30 June 2024.
- (2) The calculation is based on the total number of 1,901,324,281 A Shares and the total number of 450,000,000 H Shares (i.e. a total of 2,351,324,281 Shares) in issue as at 30 June 2024.
- (3) Mr. Ruan Hongliang is the spouse of Ms. Jiang Jinhua. As at 30 June 2024, Mr. Ruan Hongliang owns 404,031,943 A Shares and 485,000 H Shares. Ms. Jiang Jinhua owns 324,081,600 A Shares and 111,000 H Shares. Ms. Ruan Zeyun is the spouse of Mr. Zhao Xiaofei, and the daughter of Mr. Ruan Hongliang and Ms. Jiang Jinhua. Ms. Ruan Zeyun owns 350,532,000 A Shares and 2,203,000 H Shares. Mr. Zhao Xiaofei owns 4,800,000 A Shares. As at 30 June 2024, Mr. Ruan Hongliang also has 35,650,000 A Shares pledged to lenders other than qualified lenders as security.

As at 30 June 2024, Mr. Ruan Hongliang owns 1,386,600 A share convertible bonds, which is convertible into 3,284,225 A shares. Among such convertible bonds, Mr. Ruan Hongliang had pledged 1,250,000 A share convertible bonds to lenders other than qualified lenders as security for certain borrowings, which is convertible into 2,960,682 A shares, respectively.

Pursuant to a concert party agreement dated 19 September 2016 entered into among Mr. Ruan Hongliang, Ms. Jiang Jinhua, Ms. Ruan Zeyun and Mr. Zhao Xiaofei, each of Mr. Ruan Hongliang, Ms. Jiang Jinhua, Ms. Ruan Zeyun and Mr. Zhao Xiaofei is considered to be interested in 1,083,445,543 (long positions) A Shares, 38,610,682 (short positions) A Shares and 2,799,000 H Shares under the SFO.

Save as disclosed above, as at 30 June 2024, to the knowledge of the Company, none of the Directors, supervisors and the chief executive of the Company had or was deemed under the SFO to have any interests or short positions in any of the shares or the underlying shares and debentures of the Company and any of its associated corporations (within the meaning of Part XV of the SFO) which was required to be recorded in the register required to be kept by the Company pursuant to section 352 of the SFO, or as otherwise required to be notified to the Company and the Hong Kong Stock Exchange pursuant to the Divisions 7 and 8 of Part XV of the SFO or to be notified to the Company and the Stock Exchange pursuant to the Model Code.

## INTERESTS AND SHORT POSITIONS OF SUBSTANTIAL SHAREHOLDERS

As at 30 June 2024, the persons or corporations, other than the Directors, supervisors and the chief executive of the Company, who had an interest or short position in the Shares, underlying Shares or debentures of the Company which were required to be disclosed to the Company under the provisions of Division 2 and 3 of Part XV of the SFO, or which were recorded in the register required to be kept under section 336 of the SFO were as follows:

Shareholder	Number of Shares held	Class	Nature of Interest	Approximate percentage of shareholding in the relevant class of Shares <sup>(1)</sup>	Approximate percentage of shareholding in the total share capital of the Company <sup>(2)</sup>
Mr. Zhao Xiaofei <sup>(3)</sup>	1,083,445,543 (L)	A Shares	Beneficial owner and parties acting in concert	56.98%	46.08%

As at 30 June 2024, Mr. Ruan Hongliang also has 35,650,000 A Shares pledged to lenders other than qualified lenders as security.

As at 30 June 2024, Mr. Ruan Hongliang owns 1,386,600 A share convertible bonds, which is convertible into 3,284,225 A shares. Among such convertible bonds, Mr. Ruan Hongliang had pledged 1,250,000 A share convertible bonds to lenders other than qualified lenders as security for certain borrowings, which is convertible into 2,960,682 A shares, respectively.

Pursuant to a concert party agreement dated 19 September 2016 entered into among Mr. Ruan Hongliang, Ms. Jiang Jinhua, Ms. Ruan Zeyun and Mr. Zhao Xiaofei, each of Mr. Ruan Hongliang, Ms. Jiang Jinhua, Ms. Ruan Zeyun and Mr. Zhao Xiaofei is considered to be interested in 1,083,445,543 (long positions) A Shares, 38,610,682 (short positions) A Shares and 2,799,000 H Shares under the SFO.

- (4) JPMorgan Chase & Co. indirectly held relevant interests and short positions through a series of its controlled corporations, including holding of certain unlisted derivatives (physical settlement: 276,536 shares (short positions); cash settlement: 4,362,225 shares (long positions) and 1,495,000 shares (short positions)).
- (5) BlackRock, Inc. indirectly held relevant interests and short positions through a series of its controlled corporations, including holding of certain unlisted derivatives (cash settlement: 684,000 shares (long positions) and 2,906,000 shares (short positions)).
- (6) Xizang Jingning Corporate Management Company Limited held 100% equity interest in Shanghai Greenwoods Asset Management Company Limited.
- (7) China International Capital Corporation Limited indirectly held relevant interests through a series of its controlled corporations.
- (8) UBS Group AG indirectly held relevant interests and short positions through a series of its controlled corporations, including holding of certain unlisted derivatives (cash settlement: 446,000 shares (long positions)).

Save as disclosed above, as at 30 June 2024, so far as is known to the Directors, there is no other person (other than the Directors, supervisors or the chief executive of the Company) who had interests or short positions in the Shares or underlying Shares of the Company which would fall to be disclosed to the Company and the Hong Kong Stock Exchange under the provisions of Division 2 and 3 of Part XV of the SFO, or which were recorded in the register required to be kept under section 336 of the SFO.

## PURCHASE, SALE OR REDEMPTION OF THE COMPANY'S LISTED SECURITIES

### 1. Repurchase H Shares

Reference is made to the announcements of the Company dated 30 October 2023 and 26 March 2024 in relation to proposed general mandate (the “H Share Repurchase Mandates”) to repurchase H shares and the circulars dated 4 December 2023 and 23 May 2024, to stabilize investors’ investment expectations, safeguard their general interests and strengthen their confidence in investing in the Company, taking into account its financial position and operation condition, the Company proposes to repurchase a portion of its H Shares for the purpose of boosting confidence for corporate growth, protecting share prices and practically enhancing the investment return of the shareholders of the Company. The Board is of the view that the flexibility afforded by the H Share Repurchase Mandates would be beneficial to and in the best interest of the Company and its shareholders. The relevant resolutions had been passed at the general meeting and the class meetings of the Company held on 22 December 2023 and 17 June 2024 respectively.

The Company bought back a total of 8,285,000 H Shares on the Hong Kong Stock Exchange during the six months ended 30 June 2024. Details of share purchases are as follows:

Date	Number of Shares bought back	Buy-back price per Share (HKD)		Total consideration (HKD)
		Highest	Lowest	
22 January 2024	1,990,000	15.24	14.62	29,789,120
25 January 2024	4,260,000	14.56	13.66	59,674,020
8 May 2024	715,000	17.98	17.88	12,835,340
6 June 2024	<u>1,320,000</u>	15.20	15.04	<u>19,993,260</u>
Total	<u>8,285,000</u>			<u>122,291,740</u>

On 5 August 2024, the repurchased H Shares were cancelled.

## 2. Repurchase A Shares

Reference is made to the announcement of the Company dated 23 February 2024 in relation to the repurchase plan of part of A shares by way of centralised price bidding. Based on the Company's confidence in its future sustainable development and recognition of the Company's value, and with the aim to safeguard the interests of general investors and enhance investors' confidence in the Company, while improving the Company's long-term incentive mechanism and promoting the long-term and sustainable development of the Company, it is proposed that the Company repurchase part of the Company's A shares with its own funds through the trading system of the Shanghai Stock Exchange by way of centralised price bidding, and use part of the repurchased A shares as and when appropriate in the future for the purpose of share incentive or employee stock ownership scheme.

The Company bought back a total of 8,250,600 A Shares on the Shanghai Stock Exchange during the six months ended 30 June 2024. Details of share purchases are as follows:

Date	Number of Shares bought back	Buy-back price per Share (RMB)		Total consideration (RMB)
		Highest	Lowest	
8 May 2024	957,900	26.25	25.94	24,998,095
15 May 2024	1,166,800	25.80	25.50	29,997,544
17 May 2024	1,236,100	24.50	23.94	29,996,642
27 May 2024	1,000,100	24.27	24.00	24,146,100
4 June 2024	190,000	24.50	24.24	4,633,464
6 June 2024	868,300	24.39	24.12	21,039,986
7 June 2024	1,274,300	23.81	23.34	29,998,105
17 June 2024	687,600	22.96	22.36	15,724,265
18 June 2024	869,500	22.95	22.74	19,866,148
Total	<u>8,250,600</u>			<u>200,400,349</u>

Save as disclosed in this report, neither the Company nor any of its subsidiaries has purchased, sold or redeemed any of the Company's listed securities (including sale of treasury shares).

## ISSUANCE OF EQUITY SECURITIES AND USE OF PROCEEDS

### 1. Issuance of A Share Convertible Bonds

To further expand the capacity and maintain the leading technology and scale advantage of the Company's core product PV glass, while enhancing the financial strength and meet the working capital requirements of the Company, the Company proposed to issue A share convertible corporate bonds in the PRC, with total proceeds of no more than RMB4 billion. The relevant resolution was approved at the Board meeting held on 16 June 2021, and was approved at the 2021 second extraordinary general meeting, the 2021 second A share class meeting and the 2021 second H shareholders class meeting of the Company on 20 August 2021. On 16 June 2021, the announcement in relation to the issuance of A shares convertible bonds was published on the website of the Hong Kong Stock Exchange and the closing price of A share on that day was RMB29.53 per share. The target investors of the A share convertible bonds are natural persons, legal persons, securities investment funds and other investors who meet the requirements under the laws, and who have maintained securities accounts with the Shanghai Branch of China Securities Depository and Clearing Corporation Limited (except those prohibited by the state laws and regulations in the PRC). It was reported to the CSRC on 8 November 2021 and it was approved by CSRC in March 2022. The issuance of A share convertible bonds was completed in May 2022. The A share convertible bonds under this issuance were with a nominal value of RMB100 and were issued at par. The Company completed the issue of 40 million convertible bonds. The subscription funds for the A share convertible bonds under this issuance totaled RMB4,000,000,000.00. After deducting the issuance fee of RMB23,078,799.67, the net funds raised were RMB3,976,921,200.33. As of 30 June 2024, a total of RMB76,000 convertible bonds has been converted into 1,726 A Shares of the Company.

The total net proceeds from the public issuance of A share convertible bonds by the Company amounted to approximately RMB3,976.92 million. As at 30 June 2024, the use of such proceeds were as follows:

Use for	Percentage of net proceeds	Amount of net proceeds (RMB'0,000)	Amount utilized (RMB'0,000)	Amount unutilized (RMB'0,000)
Annual production of 750,000 tons of solar equipment ultra-thin and ultra-high-transparent panel manufacturing project	48.91%	194,500.00	137,937.86	56,562.14
Distributed PV power generation construction project	15.97%	63,492.12	27,105.90	36,386.22
Annual production of 15 million square meters of solar PV ultra-white glass technical transformation project	4.95%	19,700.00	18,946.05	753.95
Working capital	30.17%	120,000.00	120,000.00	-
<b>Total</b>	<b>100%</b>	<b>397,692.12</b>	<b>303,989.91</b>	<b>93,702.31</b>

The amount unutilized is expected to be fully utilized by the Company according to its use of proceeds plan for such proceeds by December 2024. As at the date of the 2024 interim results announcement, the Directors confirm that the proceeds were used and are proposed to be used according to the intentions previously disclosed.

## 2. Issuance of A Shares to Specific Subscribers

In order to further increase the Company's capacity scale, meet the growing market demand of the photovoltaic industry, provide customers with better quality products and efficient and timely services, further improve the company's comprehensive competitive strength, and consolidate and enhance the company's market position, on 1 June 2022, the Board approved the proposed Issuance of A Shares to Specific Subscribers which was then approved by shareholders of the Company at the 2022 first extraordinary general meeting, the 2022 first A share class meeting and the 2022 first H share class meeting held on 29 July 2022. In November 2022, the Company received the "Approval in Relation to the Non-public Issuance of Shares by Flat Glass Group Co., Ltd. (Zheng Jian Xu Ke [2022] No. 2742)" (《關於核准福萊特玻璃集團股份有限公司非公開發行股票的批覆》(證監許可[2022]2742號)) from the CSRC, which approved the Company's proposed non-public issuance of not more than 509,068,000 new A Shares. The proposed extension of the validity period of the resolution relating to the Issuance of A Shares to Specific Subscribers and the proposed extension of the validity period of the mandate to the Board to deal with matters relating to the Issuance of A Shares to Specific Subscribers were approved by shareholders at the 2023 first extraordinary general meeting, the 2023 first A share class meeting and the 2023 first H share class meeting held on 24 July 2023. The shares to be issued under the non-public issuance are RMB denominated ordinary Shares (A Shares) with a nominal value of RMB0.25 each, which will be listed on the Shanghai Stock Exchange. On 1 August 2023, the Company completed the Issuance of A Shares to Specific Subscribers with the issuance of 204,429,301 A Shares in total at issue price of RMB29.35 per share. The total proceeds from the Issuance of A Shares to Specific Subscribers is RMB5,999,999,984.35. After deducting the underwriting fee and other issuance fee (excluding value-added tax) of RMB34,592,837.65, the net funds raised were RMB5,965,407,146.70. On 1 June 2022, the announcement relating to the Issuance of A Shares to Specific Subscribers was published on the website of Hong Kong Stock Exchange and the closing price of A Share on that day was RMB42.51 per share. The target subscribers including securities investment fund management companies, securities firms, trust companies, finance companies, insurance institutional investors, qualified foreign institutional investors which satisfy the relevant requirements of the CSRC and other corporate bodies, individuals or other institutional investors which satisfy the relevant requirements of the relevant laws and regulations.

The total net proceeds from the Issuance of A Shares to Specific Subscribers amounted to approximately RMB5,965,407,146.70. As at 30 June 2024, the use of such proceeds were as follows:

Project		Percentage of proceeds	Amount of net proceeds (RMB'0,000)	Amount utilized (RMB'0,000)	Amount unutilized (RMB'0,000)
Annual production of 1,950,000 tons of new energy equipment high-transparent panel manufacturing project	Annual production of 750,000 tons of new energy equipment high-transparent panel manufacturing project	32.353%	193,000.00 <sup>note-2</sup>	183,505.18	9,494.82
	Annual production of 1,200,000 tons of new energy equipment high-transparent panel manufacturing project				
Annual production of 1,500,000 tons of new energy equipment ultra-thin and ultra-high-transparent panel manufacturing project		37.473%	223,540.71 <sup>note 1, 3</sup>	180,084.43	43,456.28
Working capital		30.174%	180,000.00 <sup>note-4</sup>	180,000.00	-
<b>Total</b>		<b>100%</b>	<b>596,540.71</b>	<b>543,589.61</b>	<b>52,951.10</b>

Notes:

1. This project will be implemented in phases, and such proceeds from the Issuance of A Shares to Specific Subscribers will be used for the first phase of the project.
2. The proceeds of the Issuance of A Shares to Specific Subscribers will be utilized according to its progress and the amount unutilized is expected to be fully utilized by 31 December 2024.
3. The proceeds of the Issuance of A Shares to Specific Subscribers will be utilized according to its progress, and the amount unutilized is expected to be fully utilized by 30 June 2025.

4. The proceeds of the Issuance of A Shares to Specific Subscribers will be used to return bank loans and for general business operation. As at 31 December 2023, the proceeds have been used up.

As at the date of the 2024 interim results announcement, the directors confirm that the proceeds are proposed to be used according to the intentions previously disclosed.

## TAXATION

### Holders of A shares

In accordance with the Notice of the Ministry of Finance, the State Administration of Taxation and the CSRC on Implementing Differentiated Individual Income Tax Policy for Stock Dividends of Listed Companies (Cai Shui [2015] No. 101) (《財政部、國家稅務總局、中國證監會關於上市公司股息紅利差別化個人所得稅政策有關問題的通知》(財稅[2015]101號)), for shares of listed companies acquired by individuals from public offerings or transfer of shares in the market, where the holding period exceeds one year, the dividends shall be temporarily exempted from individual income tax; where the holding period is less than one month (inclusive), the full amount of dividends shall be counted as taxable income and where the holding period is more than one month and less than one year (inclusive), 50% of the dividends shall be counted as taxable income on a provisional basis. The individual income tax rate of 20% shall be applicable for all incomes mentioned above. For dividends distributed by listed companies, where the period of individual shareholding is within one year (inclusive), the listed companies shall not withhold the individual income tax temporarily. The tax payable, subject to individual transfer of shares, shall be calculated by China Securities Depository and Clearing Corporation Limited in accordance with duration of its holding period. Custodian of shares including securities companies will withhold the amount from individual accounts and transfer the tax to China Securities Depository and Clearing Corporation Limited. China Securities Depository and Clearing Corporation Limited shall transfer the tax to the listed companies within 5 working days of the next month, and the listed companies shall declare the tax to the competent tax authorities upon receiving the tax amount within the statutory reporting period in that month.

Resident enterprise shareholders of A shares shall report and pay for the enterprise income tax of dividends by themselves.

For the shareholders who are Qualified Foreign Institutional Investor (QFII), the listed companies shall withhold and pay enterprise income tax at a rate of 10% pursuant to the requirements of the Notice of the State Administration of Taxation Concerning the Relevant Questions on the Withholding and Payment of Enterprise Income Tax Relating to the Payment of Dividends, Bonus and Interest by PRC Resident Enterprises to QFII (Guo Shui Han [2009] No. 47) (《國家稅務總局關於中國居民企業向QFII支付股息、紅利、利息代扣代繳企業所得稅有關問題的通知》(國稅函2009[47]號)). QFII shareholders entitled to preferential tax treatment under tax treaties (arrangements) shall apply to the competent taxation authority for tax rebates according to the relevant rules and regulations after they receive the dividends, and tax rebates will be executed under tax treaties upon verification carried out by competent tax authorities.

For non-resident enterprise shareholders of A shares except the above-mentioned QFII, listed companies shall withhold and pay enterprise income tax at a rate of 10% pursuant to the requirements of the Tentative Measures for Administration of Withholding at the Source of Income Tax of Non-resident Enterprises (Guo Shui Fa [2009] No. 3) (《非居民企業所得稅源泉扣繳管理暫行辦法》(國稅發[2009]3號)) and the Response of the State Administration of Taxation Concerning Questions on Enterprise Income Tax over Dividend of B-shares and Other shares Received by Non-resident Enterprises (Guo Shui Han [2009] No. 394) (《國家稅務總局關於非居民企業取得B股等股票股息徵收企業所得稅問題的批覆》(國稅函[2009]394號)). Non-resident enterprise shareholders entitled to preferential tax treatment shall make registration in accordance with the relevant provisions of the tax treaties.

Pursuant to the requirements of the Notice of the Ministry of Finance, the State Administration of Taxation and the CSRC on the Tax Policies Related to the Pilot Program of the Shanghai-Hong Kong Stock Connect (Cai Shui [2014] No. 81) (《財政部、國家稅務總局、中國證監會關於滬港股票市場交易互聯互通機制試點有關稅收政策的通知》(財稅[2014]81號)), listed companies shall withhold an income tax at the rate of 10% on dividends from the A shares of the company invested by Hong Kong investors (including enterprises and individuals) through the SSE, and apply for withholding via the competent tax authorities (before the Hong Kong Securities Clearing Company Limited is able to provide details such as investor identities and holding periods to China Securities Depository and Clearing Corporation Limited, the policy of differentiated rates of taxation based on holding periods will temporarily not be implemented). For investors who are tax residents of other countries and whose country of domicile is a country which has entered into a tax treaty with the PRC stipulating a dividend tax rate of lower than 10%, those enterprises and individuals may, or may entrust a withholding agent to, apply to the competent tax authority of the listed company for the entitlement of the rate under such tax treaty. Upon approval by the competent tax authority, the paid amount in excess of the tax payable based on the tax rate according to such tax treaty will be refunded.

Pursuant to the requirements of the Notice of the Ministry of Finance, the State Administration of Taxation and the CSRC on the Tax Policies Related to the Pilot Program of the Shenzhen-Hong Kong Stock Connect (Cai Shui [2016] No. 127) (《財政部、國家稅務總局、中國證監會關於深港股票市場交易互聯互通機制試點有關稅收政策的通知》(財稅[2016]127號)), listed companies shall withhold an income tax at the rate of 10% on dividends from the A shares of the company invested by Hong Kong investors (including enterprises and individuals) through the Shenzhen Stock Exchange, and apply for withholding via the competent tax authorities (before the Hong Kong Securities Clearing Company Limited is able to provide details such as investor identities and holding periods to China Securities Depository and Clearing Corporation Limited, the policy of differentiated rates of taxation based on holding periods will temporarily not be implemented). For investors who are tax residents of other countries and whose country of domicile is a country which has entered into a tax treaty with the PRC stipulating a dividend tax rate of lower than 10%, those enterprises and individuals may, or may entrust a withholding agent to, apply to the competent tax authority of the listed company for the entitlement of the rate under such tax treaty. Upon approval by the competent tax authority, the paid amount in excess of the tax payable based on the tax rate according to such tax treaty will be refunded.

### **Holders of H shares**

In accordance with the requirements of the Circular on Certain Issues Concerning the Policies of Individual Income Tax (Cai Shui Zi [1994] No. 020) (《關於個人所得稅若干政策問題的通知》(財稅字[1994]020號)) promulgated by the Ministry of Finance and the State Administration of Taxation on May 13, 1994, overseas individuals are, as an interim measure, exempted from the PRC individual income tax for dividends or bonuses received from foreign-invested enterprises.

Pursuant to the requirements of the Notice of the State Administration of Taxation on Matters Concerning Withholding Enterprise Income Tax When China Resident Enterprises Distribute Dividends to Foreign Non-resident Enterprise shareholders of H shares (Guo Shui Han [2008] No. 897) (《國家稅務總局關於中國居民企業向境外H股非居民企業股東派發股息代扣代繳企業所得稅有關問題的通知》(國稅函[2008]897號)), distributing dividends to foreign nonresident enterprise shareholders of H shares for 2008 and for the years onwards shall be subject to the enterprise income tax withheld at a uniform rate of 10%. Upon receipt of such dividends, an overseas non-resident enterprise shareholder may apply to the competent tax authorities for relevant treatment under the tax treaties (arrangements) in person or through a proxy or a withholding agent and provide evidence in support of its status as a beneficial owner as defined in the tax treaties (arrangements). Upon verification by the competent tax authorities, the difference between the tax levied and the amount of tax payable as calculated at the tax rate under the tax treaties (arrangements) will be refunded.

According to the requirements of the Notice on the Tax Policies Concerning the Pilot Program of the Shanghai-Hong Kong Stock Connect published by the Ministry of Finance, the State Administration of Taxation and the CSRC (Cai Shui [2014] No. 81) (《財政部、國家稅務總局、中國證監會關於滬港股票市場交易互聯互通機制試點有關稅收政策的通知》(財稅[2014]81號)), H-share companies shall withhold an individual income tax at the rate of 20% on dividends from the H shares of the company invested by mainland individual investors on the Hong Kong Stock Exchange through the Shanghai-Hong Kong Stock Connect. For dividends of the shares listed on the Hong Kong Stock Exchange received by mainland securities investment funds from investment through the Shanghai-Hong Kong Stock Connect, individual income tax shall be calculated in accordance with the above requirements. For dividends of the shares listed on the Hong Kong Stock Exchange received by mainland enterprise investors from investment through the Shanghai-Hong Kong Stock Connect, H-share companies shall not withhold income tax of dividends, and mainland enterprise investors shall report and pay the tax amount by themselves. In particular, the dividends received by resident enterprises in mainland which hold H shares for at least 12 consecutive months shall be exempted from enterprise income tax according to law.

According to the requirements of the Notice on the Tax Policies Concerning the Pilot Program of the Shenzhen Hong Kong Stock Connect published by the Ministry of Finance, the State Administration of Taxation and the CSRC (Cai Shui[2016] No. 127) (《財政部、國家稅務總局、中國證監會關於深港股票市場交易互聯互通機制試點有關稅收政策的通知》(財稅[2016]127號)), H-share companies shall withhold an individual income tax at the rate of 20% on dividends from the H shares of the company invested by mainland individual investors on the Hong Kong Stock Exchange through the Shenzhen-Hong Kong Stock Connect. For dividends of the shares listed on the Hong Kong Stock Exchange received by mainland securities investment funds from investment through the Shenzhen-Hong Kong Stock Connect, individual income tax shall be calculated in accordance with the above requirements. For dividends of the shares listed on the Hong Kong Stock Exchange received by mainland enterprise investors from investment through the Shenzhen-Hong Kong Stock Connect, H-share companies shall not withhold income tax of dividends, and mainland enterprise investors shall report and pay the tax amount by themselves. In particular, the dividends received by resident enterprises in mainland which hold H shares for at least 12 consecutive months could be exempted from enterprise income tax according to law.

The shareholders of the Company shall pay the relevant tax and/or are entitled to tax reliefs in accordance with the above requirements.

## **DIVIDENDS**

For the six months ended 30 June 2024, the Board recommended an ordinary interim dividend of RMB0.13 per share (before tax) and is subject to the approval by an extraordinary general meeting of shareholders of the Company (“the EGM”) to be convened. As the date of the EGM is yet to be set, the Company will announce in due course the details of the dates of closure of register of members, the record date and the payment date in a separate announcement.

Dividends on A Shares will be paid in RMB and dividends on H Shares will be paid in Hong Kong dollars. The exchange rate for the dividend to be paid in Hong Kong dollars will be the mean of the exchange rates of Hong Kong dollars to RMB as announced by the People’s Bank of China during the five business days prior to the date of the EGM.

## **REVIEW OF THE INTERIM REPORT BY THE AUDIT COMMITTEE OF THE COMPANY**

The Company’s interim report for the six months ended 30 June 2024 is unaudited, but has been reviewed by the Company’s audit committee, comprising its three independent non-executive Directors.

# Notes to the Financial Statements

## (I) CORPORATION INFORMATION

### 1. Company Overview

Flat Glass Group Co., Ltd. (the “Company”) was established on 24 June 1998 with its registered address at 1999 Yunhe Road, Xiuzhou District, Jiaxing, Zhejiang Province. On 29 December 2005, the Company was converted into a joint stock limited liability company and changed its name to Zhejiang Flat Glass & Mirror Co., Ltd.\* (浙江福萊特玻璃鏡業股份有限公司). On 23 March 2011, the Company was renamed as Flat Solar Glass Group Co., Ltd.\* (福萊特光伏玻璃集團股份有限公司) and subsequently renamed as Flat Glass Group Co., Ltd.\* (福萊特玻璃集團股份有限公司) on 10 October 2014.

The principal activities of the Company and its subsidiaries (the “Group”) are the manufacturing and sales of glass products.

## (II) BASIS OF PREPARATION OF FINANCIAL STATEMENTS

### 1. Basis of preparation

The financial statements have been prepared on a going concern basis.

### 2. Going concern

The Group has assessed the ability to continue as a going concern for a 12-month period since 30 June 2024 and is not aware of any events or conditions that may cast significant doubt upon the ability to continue as a going concern. So the financial statements have been prepared on a going concern basis.

### **(III) SIGNIFICANT ACCOUNTS POLICIES AND ACCOUNTING ESTIMATES**

The principal activities of the Group are the manufacturing and sales of glass products. Certain specific accounting policies and accounting estimates have been formulated according to the relevant accounting standards for enterprises. The detailed disclosures are as follows.

#### **1. Statement of Compliance with CASBE**

The financial statements of the Company have been prepared in accordance with the CASBE, and present truly and completely the Company's financial position, the results of operations, the changes in shareholders' equity and the cash flows and other relevant information.

#### **2. Accounting Period**

The accounting year of the Group is the calendar year, i.e. from 1 January to 31 December of each year.

#### **3. Operating Cycle**

Operating cycle refers to the period from the purchase of assets used for processing to the realization of cash or cash equivalents. The Group's operating cycle usually takes approximately 12 months.

#### **4. Functional Currency**

Renminbi ("RMB") is the currency in the primary economic environment in which the Company and its subsidiaries other than the Vietnam and Indonesia subsidiary operate, The Company and its subsidiaries other than the Vietnam and Indonesia subsidiary use RMB as their functional currency. The Company's Vietnam subsidiary determines VND as its functional currency based on the currency in the primary economic environment in which it operates. The currency used by the Company in preparing the financial statements is RMB.

## 5. Significant Criteria Determination Method and Selection Basis

Items	Standards on materiality
Major sales customers	Sales income from a single customer is more than 10% of total revenue
Major construction in progress	The budget for an individual project is more than RMB100 million
Major fixed assets impairment	The impairment amount of an individual fixed assets is more than RMB100 million

## 6. Accounting Methods of Business Combination Involving Enterprises under Common Control and Not Involving Enterprises under Common Control

Business combinations are classified into business combinations involving enterprises under common control and business combinations not involving enterprises under common control.

For transactions not under common control, the acquirer will consider whether to adopt the simplified judgment method of “concentration test” when judging whether the acquired combination constitute a business. If the combination passes the concentration test, it does not constitute a business. If the combination fails the concentration test, the judgment shall be made according to business conditions.

### 6.1 *Business combinations involving enterprises under common control*

A business combination involving enterprises under common control is a business combination in which all of the combining enterprises are ultimately controlled by the same party or parties both before and after the combination, and that control is not transitory.

Assets and liabilities acquired in a business combination are measured at their carrying amount of the combined party at the combination date. The difference between the carrying amount of the net assets acquired by the combining party and the carrying amount of the consideration paid for the combination (or the aggregate face value of the shares issued) is adjusted to share premium under capital reserve, if the share capital premium is insufficient to offset the difference, the retained earnings will be adjusted.

The costs that are directly attributable to the business combination are charged to profit or loss in the period in which they are incurred.

## **6.2 Business combinations not involving enterprises under common control and goodwill**

A business combination not involving enterprises under common control is a business combination in which all of the combining enterprises are not ultimately controlled by the same party or parties both before and after the combination.

The cost of combination is measured at the aggregate of the fair values, at the acquisition date, of assets given, liabilities incurred or assumed, and equity instruments issued by the acquirer in exchange for control of the acquiree. The intermediary fees incurred by the acquirer in respect of auditing, legal services, valuation and consultancy services, etc. and other related administrative expenses attributable to the business combination are charged to profit or loss in the period in which they are incurred.

The identifiable assets, liabilities and contingent liabilities of the acquiree that meet the recognition conditions acquired by the acquirer in a business combination, are measured at their fair values at the acquisition date.

Where the cost of combination exceeds the acquirer's interest in the fair value of the acquiree's identifiable net assets, the difference is recognised as an asset as goodwill and is initially measured at cost. Where the cost of combination is less than the acquirer's interest in the fair value of the acquiree's identifiable net assets, the acquirer firstly reassesses the measurement of the fair values of the acquiree's identifiable assets, liabilities and contingent liabilities and the measurement of the cost of combination. If after that reassessment, the cost of combination is still less than the acquirer's interest in the fair value of the acquiree's identifiable net assets acquired in the combination, the difference is recognised in profit or loss.

Goodwill occurred as a result of combination shall be recognised separately in the consolidated financial statements and measured at cost less accumulated impairment provision.

## **7. Criterion of Control and Preparation of Consolidated Financial Statements**

### ***7.1 Criterion of control***

Control refers to the power that the investor has over the investee; it means that the investor enjoys variable returns by taking part in the relevant activities of the investee and is capable of using its power over the investee to influence the amount of return. In case of changes in the relevant elements involved in the aforesaid definition of control as a result of the changes in facts and circumstance, the Group will conduct re-assessment.

### ***7.2 Preparation of Consolidated Financial Statements***

The scope of consolidation for the consolidated financial statements is determined based on control.

Consolidation of a subsidiary begins when the Group obtains control over the subsidiary and ceases when the Group loses control of the subsidiary.

For a subsidiary disposed of by the Group, the operating results and cash flows before the date of disposal (the date when control is lost) are included in the consolidated income statement and consolidated statement of cash flows, as appropriate.

For a subsidiary acquired through a business combination not involving enterprises under common control, the operating results and cash flows from the acquisition date (the date when control is obtained) are included in the consolidated income statement and consolidated statement of cash flows, as appropriate.

No matter when the business combination occurs in the reporting period, subsidiaries acquired through a business combination involving enterprises under common control or the party being absorbed under merger by absorption are included in the Group's scope of consolidation as if they had been included in the scope of consolidation from the date when they first came under the common control of the ultimate controlling party. Their operating results and cash flows from the beginning of the earliest reporting period or from the date when they first came under the common control of the ultimate controlling party are included in the consolidated income statement and consolidated statement of cash flows, as appropriate.

The significant accounting policies and accounting periods adopted by the subsidiaries are determined in accordance with the Company's unified accounting policies and accounting periods.

The impact of internal transactions between the Company and its subsidiaries and among the subsidiaries on the consolidated financial statements is eliminated on consolidation.

The portion of a subsidiary's equity that is not attributable to the Company is treated as minority interests and presented as "minority interests" under shareholders' equity in the consolidated balance sheet. The portion of a subsidiary's net profit or loss for the period attributable to minority interests is presented as "profit or loss attributable to minority interests" under net profit in the consolidated income statement.

When the amount of loss for the period attributable to the minority shareholders of a subsidiary exceeds the minority shareholders' portion in the opening balance of owners' equity of the subsidiary, the balance is still allocated against minority interests.

## **8. Recognition Criteria of Cash and Cash Equivalents**

Cash comprises cash on hand and deposits that can be readily withdrawn on demand. Cash equivalents are short-term (generally means due within three months from the date of purchase), highly liquid investments held by the Group that are readily convertible to known amounts of cash and which are subject to an insignificant risk of changes in value.

## **9. Translation of Foreign Currency Business and Financial Statements Denominated in Foreign Currency**

### ***9.1 Foreign currency business***

Foreign currency transactions are translated at the spot exchange rate on the date of transaction at initial recognition.

At the balance sheet date, foreign currency monetary items are translated into RMB using the spot exchange rates at the balance sheet date. The exchange difference between the spot exchange rate on that date and the spot exchange rate on the initial recognition date or the previous balance sheet date shall be included in the current profit and loss.

### ***9.2 Translation of foreign currency financial statements***

For the purpose of preparing the consolidated financial statements, the foreign currency financial statements of overseas operations are translated into RMB financial statements using the following method: all assets and liabilities in the balance sheet are translated at the spot exchange rate at the balance sheet date; equity items converted at the spot exchange rate at the time of occurrence; all items in the income statement and items reflecting the amount of profit distribution are translated at the exchange rates approximating the foreign exchange rates ruling at the dates of the transactions; the difference between assets and the sum of liabilities and shareholders' equity after translation is recognised in other comprehensive income and included in shareholders' equity.

Cash flows arising from a transaction in foreign currency and the cash flows of a foreign subsidiary are translated at an exchange rate which approximates the spot exchange rate on the date of the cash flows. The effect of exchange rate changes on cash and cash equivalents is regarded as a reconciliation item and presented separately in the statement of cash flows as “effect of exchange rate changes on cash and cash equivalents”.

The opening balances and the actual figures of prior year are presented at the translated amounts in the prior year’s financial statements.

## **10. Financial Instruments**

The Group recognises a financial asset or a financial liability when it becomes a party to a financial instrument contract.

Where financial assets are purchased or sold in a regular way, assets to be received and liabilities to be borne are recognised on the date of transaction, or assets sold are derecognised on the date of transaction.

Financial assets and financial liabilities are initially measured at fair value. For financial assets and financial liabilities at fair value through profit or loss, the related transaction costs are directly recognised in profit or loss in the period in which they are incurred. For other categories of financial assets and financial liabilities, the related transaction costs are included in the initially recognised amount. When the Group initially recognises receivables that do not contain a significant financing component or do not consider the financing component in a contract not exceeding one year in accordance with the Accounting Standards for Business Enterprises No. 14 – Revenue (the “Revenue Standard”), the Group initially measures the receivables at the transaction price as defined in the Revenue Standard.

Effective interest rate method is the method that is used in the calculation of the amortised cost of a financial asset or a financial liability and in the allocation and recognition of the interest revenue or interest expense in profit or loss over the relevant period.

The effective interest rate is the rate that discounts estimated future cash flows through the expected duration of a financial asset or a financial liability to the carrying amount of the financial asset or to the amortised cost of the financial liability. In determining the effective interest rate, the expected cash flow is estimated on the basis of all contractual terms of the financial asset or financial liability (such as early repayment, extension, call options or other similar options, etc.) without taking into account the expected credit loss.

The amortised cost of a financial asset or a financial liability is the amount initially recognised for a financial asset or a financial liability net of principal repaid, plus or less the cumulative amortised amount arising from amortisation of the difference between the amount initially recognised and the amount at the maturity date using the effective interest method, net of cumulative loss allowance (only applicable to financial assets).

### ***10.1 Classification, recognition and measurement of financial assets***

Subsequent to initial recognition, the Group's financial assets of various categories are subsequently measured at amortised cost, fair value through other comprehensive income ("FVTOCI") or fair value through profit or loss ("FVTPL").

If the contractual terms of the financial asset stipulate that the cash flows generated on a specific date are solely payments of the principal and the interest on the principal amount outstanding and the financial asset is managed by the Group in a business model aimed at collecting contractual cash flows, the Group shall classify the financial asset into the financial asset measured at amortised cost. Such financial assets mainly include cash and bank balances, bills receivable and receivables, other receivables, etc.

If the contractual terms of the financial asset stipulate that the cash flows generated on a specific date are solely payments of the principal and the interest on the principal amount outstanding and the financial asset is managed by the Group in a business model aimed at both collecting contractual cash flows and selling such financial assets, the Group shall classify the financial asset into the financial asset at FVTOCI. These financial assets were classified as bills receivable at fair value through other comprehensive income when obtaining, and presented under receivables financing.

On initial recognition, the Group may, based on an individual financial asset, irrevocably designate a non-tradable equity instrument investment other than contingent consideration recognised in business combination not involving enterprises under common control as financial asset at FVTOCI. Such financial assets are presented as other equity instrument investments.

The Group's purpose of holding the financial assets is for trading if one of the following conditions is satisfied:

- The purpose of acquiring the financial assets is to sell the assets in the near future.
- The relevant financial assets are part of a portfolio of identified financial instruments that are centrally managed on initial recognition, and there is objective evidence of actually a recent short-term profit-taking model.
- The relevant financial assets are derivatives, except for derivatives defined under financial guarantee contracts and derivatives designated as effective hedging instruments.

Financial assets at FVTPL include financial assets classified as at FVTPL and financial assets designated as at FVTPL.

- Financial assets that do not meet the classification criteria for financial assets at amortised cost or financial assets at FVTOCI are classified as financial assets at FVTPL.
- On initial recognition, the Group may irrevocably designate a financial asset as at FVTPL if doing so eliminates or significantly reduces an accounting mismatch or when the criteria for the hybrid contract with embedded derivatives are met.

Except for derivative financial assets, financial assets at FVTPL are presented as held-for-trading financial assets.

#### *10.1.1 Financial assets measured at amortised cost*

Financial asset at amortised cost is subsequently measured at amortised cost using the effective interest method. Gains or losses arising from derecognition, impairment or amortisation are recognised in profit or loss.

The Group recognises interest income on financial assets measured at amortised cost using the effective interest method. The Group determines the interest income based on the carrying amount of financial assets multiplied by the effective interest rate, except for:

- For purchased or originated credit impaired financial assets, the Group recognises their interest income based on amortised cost and credit-adjusted effective interest rate of such financial assets since initial recognition.

- For purchased or originated financial assets without credit impairment but with credit impairment incurred in subsequent periods, the Group calculates and determines its interest income based on amortised cost of the financial asset and the effective interest rate in subsequent periods. If the credit risk of the financial instrument improves in subsequent periods and the financial instrument is no longer credit impaired and the improvement can be linked to an event occurring after the application of the above requirements, the Group will determine the interest income based on the effective interest rate multiplied by the carrying amount of the financial assets.

#### *10.1.2 Financial assets classified as at FVTOCI*

Except for impairment losses or gains related to financial assets at FVTOCI, interest income calculated using the effective interest method and exchange gains and losses are recognised in profit or loss, changes in fair value of the financial assets are recognised in other comprehensive income. The amount of the financial assets included in profit or loss for each period shall be equal to the amount deemed as measured at amortised cost and included in profit or loss for each period. Upon derecognition of the financial assets, cumulative gains or losses previously recognised in other comprehensive income are transferred and reclassified into profit or loss for the period.

After the non-tradable equity instrument investment is designated as a financial asset at FVTOCI, the changes in fair value of the financial asset are recognised in other comprehensive income. When the financial asset is derecognised, the cumulative gains or losses previously recognised in other comprehensive income are transferred from other comprehensive income and recognised in retained earnings. During the period that the Group holds these non-tradable equity instrument, the dividend income is recognised and included in profit or loss when the Group's right to receive dividends has been established and the economic benefits associated with the dividends are likely to flow into the Group and the amount of the dividends can be reliably measured.

### *10.1.3 Financial assets at FVTPL*

Financial assets at FVTPL shall be subsequently measured at fair value. Gains or losses from change in fair value and dividends and interest income related to such financial assets shall be recognised in profit or loss.

## **10.2 Impairment of financial instruments**

The Group performs impairment accounting for financial assets measured at amortised cost and financial assets at FVTOCI based on expected credit losses (“ECL”) and recognises loss allowance.

The Group measures the loss reserves of all commercial acceptance, bills receivable and trade receivable formed due to the income standard in accordance with the amount equivalent to lifetime ECL.

For other financial instruments, except for purchased or originated credit impaired financial assets, at each balance sheet date, the Group assesses changes in credit risk of relevant financial instruments since initial recognition. If the credit risk on the financial instrument has increased significantly since initial recognition, the Group measures its loss allowance at an amount equal to lifetime ECL of the financial instrument. If the credit risk on the financial instrument has not increased significantly since initial recognition, the Group measures the loss allowance at an amount equal to next 12-month ECL of the financial instrument. Except for financial assets measured at FVTOCI, the increased or reversed amount of credit loss provision shall be included in profit and loss for the period as impairment loss or gain. The Group recognises credit loss provision for financial assets at FVTOCI in other comprehensive income and recognises loss/gain on impairment in profit or loss for the period, without reducing the carrying amount of the financial assets presented in the balance sheet.

The Group measured loss allowance at an amount equal to the lifetime ECL of the financial instruments in the previous accounting period. However, as at the balance sheet date for the current period, for the above financial instruments, due to failure to qualify as significant increase in credit risk since initial recognition, the Group measures loss allowance for the financial instrument at an amount equal to next 12-month ECL at the balance sheet date for the current period, and the relevant reversal amount of loss allowance is included in profit or loss for the current period as an impairment gain.

#### *10.2.1 Significant increase in credit risk*

The Group uses reasonable and supportable forward-looking information that is available to determine whether the credit risk of a financial instrument has increased significantly since initial recognition by comparing the risk of a default occurring on the financial instrument as at the balance sheet date with the risk of a default occurring on the financial instrument as at the date of initial recognition. For loan commitments and financial guarantee contracts, the Group uses the date on which it becomes the party making the irrevocable undertaking as the initial recognition date when applying provisions for financial instrument impairment.

The Group will take the following factors into consideration when assessing whether the credit risk has significantly increased:

- (1) Whether the external market indicators of credit risk for the same financial instrument or similar financial instruments with same expected life have changed significantly. These indicators include: credit spread, credit default swap prices for borrowers.
- (2) Whether the debtor's internal credit rating is actually lowered or is expected to be lowered.

- 
- (3) Adverse changes in business, financial or economic conditions that are expected to cause a significant change to the debtor's ability to meet its debt obligations.
  - (4) Whether the actual or expected operating results of the debtor has changed significantly.
  - (5) Whether the regulatory, economic or technological environment in which the debtor is located has undergone significant adverse changes.

Irrespective of a significant increase in credit risk since above assessment, the credit risk of the financial instrument is considered to have increased significantly when the contractual payments are past due more than 30 days (inclusive).

As at the balance sheet date, if the Group judges that the financial instrument solely has lower credit risk, the Group will assume that the credit risk of the financial instrument has not significantly increased since initial recognition. If the default risk of a financial instrument is low, and the borrower is highly capable of meeting its contract cash flow obligations in short term, the financial instrument is considered to have a lower credit risk even if there is a negative change in the economic situation and operating environment over a longer period of time, but it may not necessarily reduce the borrower's performance of its contract cash obligations.

### *10.2.2 Credit impaired financial assets*

A financial asset is credit impaired when one or more events that have an adverse impact on the estimated future cash flows of the financial asset occurred. Evidence that a financial asset is credit impaired includes the following observable information:

- (1) Significant financial difficulty of the issuer or the debtor;
- (2) The debtor breaches the contract, such as default or overdue on interest or principal payment;
- (3) The creditor, for economic or contractual reasons relating to the financial difficulties of the debtor, granted to the debtor a concession that the creditor would not otherwise consider;
- (4) The debtor is likely to enter bankruptcy or other financial reorganisation;
- (5) The active market for the financial asset disappeared due to the financial difficulties of the issuer or the debtor.

Based on the Group's internal credit risk management, the Group considers an event of default occurs when information proposed internally or obtained externally indicates that the debtor of the financial instrument is unable to pay its creditors (including the Group) in full (without taking into account any guarantees obtained by the Group).

Irrespective of the above assessment, the Group presumes that default has occurred when the contractual payments for a financial instrument are past due for more than 90 days (inclusive).

### *10.2.3 Determination of ECL*

The Group determines ECL of relevant financial instruments according to the following methods:

- For financial assets, the credit loss shall be the present value of the difference between the contractual cash flow to be received by the Group and the expected cash flow to be received.
- As for the financial assets with credit impairment occurred on the balance sheet date but not purchased or generated, the credit loss is the difference between the book balance of the financial assets and the present value of the estimated future cash flow discounted at the original effective interest rate.

The factors reflected in the Group's methods of measuring ECL of financial instruments include: the unbiased probability weighted average amount determined by evaluating a series of possible results; the time value of money; the reasonable and supportable information about past events, current situation and future economic situation forecast that is available without undue costs or efforts on the balance sheet date.

### *10.2.4 Write-down of financial assets*

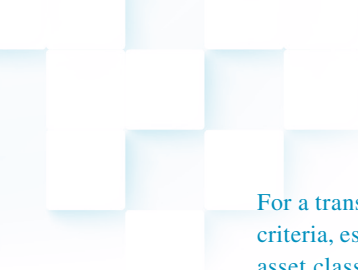

When the Group no longer reasonably expects that the contractual cash flow of the financial assets can be recovered in whole or in part, the book balance of the financial assets shall be written down directly. Such write down constitutes derecognition of related financial assets.

### **10.3 Transfer of financial assets**

A financial asset is derecognised when one of the following conditions is met: (1) the contractual rights to receive the cash flows from the financial asset expire; (2) the financial asset has been transferred and substantially all the risks and rewards of ownership of the financial asset has been transferred to the transferee; or (3) the financial asset has been transferred, although the Group neither transfers nor retains substantially all the risks and rewards of ownership of the financial asset, it does not retain control over the financial asset.

If the Group neither transfers nor retains substantially all the risks and rewards of ownership of a financial asset, it retains control of the financial asset, it recognises the financial asset to the extent of its continuing involvement in the transferred financial asset and recognises the related liability accordingly. The Group measures the related liabilities in the following ways:

- If the transferred financial asset is measured at amortised cost, the carrying amount of the related liability is the carrying amount of the continuing involvement in the transferred financial asset less the amortised cost of the rights retained by the Group (if the Group retains the rights due to the transfer of the financial asset) plus the amortised cost of the obligations assumed by the Group (if the Group assumes the obligations due to the transfer of the financial asset), and the related liability is not designated as financial liability at FVTPL.
- If the transferred financial asset is measured at fair value, the carrying amount of the related liability is the carrying amount of the continuing involvement in the transferred financial asset less the fair value of the rights retained by the Group (if the Group retains the rights due to the transfer of the financial asset) plus the fair value of the obligations assumed by the Group (if the Group assumes the obligations due to the transfer of the financial asset), the fair value of the rights and the obligations shall be the fair value at the time of measurement on an independent basis.

For a transfer of a financial asset in its entirety that satisfies the derecognition criteria, especially for a financial asset classified at amortised cost and financial asset classified as at FVTOCI, the difference between the carrying amount of the financial asset transferred and the sum of the consideration received from the transfer and any cumulative gain or loss that has been previously recognised in other comprehensive income is recognised in profit or loss for the period. While regarding non-trading equity instrument investment designated as at FVTOCI by the Group, cumulative gains or losses previously recognised in other comprehensive income are transferred and included in retained earnings.

If part of the transferred financial asset satisfies the derecognition criteria, the carrying amount of the financial asset as a whole is allocated between the part that is derecognised and the part that continues to be recognised, based on the relative fair values of those parts on the date of the transfer. The difference between the carrying amount allocated to the part derecognised and the sum of the consideration received for the part derecognised and any cumulative gain or loss allocated to the part derecognised that has been previously recognised in other comprehensive income is recognised in profit or loss. If the transferred financial asset is the non-tradable equity instrument investment designated as at FVTOCI, cumulative gain or loss that has been recognised in other comprehensive income should be removed from other comprehensive income but be recognised in retained earnings.

For a transfer of a financial asset in its entirety that does not satisfy the derecognition criteria, the Group will continuously recognise the transferred financial asset in its entirety. Considerations received should be recognised as a financial liability.

## **10.4 Classification and measurement of financial liabilities and equity instruments**

Based on the contractual terms of the financial instruments issued and the economic substance rather than only the form of legal contracts reflected, along with the definition of financial liabilities and equity instruments, the Group classifies the financial instruments or its components as financial liability or equity instrument at initial recognition.

### *10.4.1 Classification, recognition and measurement of financial liabilities*

Upon initial recognition, financial liabilities are classified into financial liabilities at FVTPL and other financial liabilities.

#### 10.4.1.1 Financial liabilities at FVTPL

Financial liabilities at fair value through profit and loss include held-for-trading financial liabilities (including derivatives that are financial liabilities) and financial liabilities designated as at FVTPL. In addition to the derivative financial liabilities listed separately, financial liabilities at FVTPL are listed as transactional financial liabilities.

The Group's purpose of undertaking the financial liabilities is for trading if one of the following conditions is satisfied:

- The purpose of undertaking relevant financial liabilities is mainly for the recent repurchase.
- The relevant financial liabilities are part of a portfolio of identified financial instruments that are centrally managed on initial recognition, and there is objective evidence of actually a recent short-term profit-taking model.
- The relevant financial liabilities are derivatives, except for derivatives defined under financial guarantee contracts and derivatives designated as effective hedging instruments.

The Group may designate, on initial recognition, a financial liability as at FVTPL if one of the following conditions is satisfied: (1) such designation eliminates or significantly reduces an accounting mismatch; (2) manage and evaluate the financial liability portfolio or the portfolio of financial assets and financial liabilities at fair value based on the risk management or investment strategy as stated in the official written documents of the Group, and report to key management of the Group internally; or (3) a qualified hybrid contract containing embedded derivatives.

Held-for-trading financial liabilities are subsequently measured at fair value, and any gains or losses arising from changes in fair value and dividends or interest expenses paid on the financial liabilities are recognised in profit or loss for the period.

For financial liabilities designated at fair value through profit or loss, changes in the fair value of such financial liabilities arising from changes in the Group's own credit risk are recognised in other comprehensive income and changes in other fair values are recognised in profit or loss in the current period. On de-recognition of the financial liability, the cumulative change in fair value attributable to changes in own credit risk previously recognised in other comprehensive income is transferred to retained earnings. Dividends or interest expenses related to these financial liabilities are recognised in profit or loss for the period. If the treatment of the effects of changes in the own credit risk of such financial liabilities as described above would cause or enlarge an accounting mismatch in profit or loss, the Group recognises the entire gain or loss on such financial liabilities (including the amount of the effect of changes in own credit risk) in profit or loss for the period.

#### 10.4.1.2 Other financial liabilities

Other financial liabilities other than financial liabilities arising from the transfer of financial assets that do not qualify for derecognition or continuing involvement in the transferred financial assets and financial guarantee contracts are classified as financial liabilities at amortised cost and subsequently measured at amortised cost, with gains or losses arising from derecognition or amortisation recognised in profit or loss for the period.

When the Group and a counterparty modify or renegotiate a contract that does not result in derecognition of a financial liability subsequently measured at amortised cost but result in changes in contractual cash flows, the Group recalculates the carrying amount of the financial liability and recognises any related gains or losses in profit or loss for the period. In recalculating the financial liability, the Group determines the carrying amount of the renegotiated or modified contractual cash flows at the present value discounted at the original effective interest rate of the financial liability. For all costs or expenses incurred in connection with the modification or renegotiation of a contract, the Group adjusts the modified carrying amount of the financial liability and amortises it over the remaining period of the modified financial liability.

#### *10.4.2 Derecognition of financial liabilities*

The Group derecognises a financial liability (or part of it) only when the underlying present obligation (or part of it) is discharged. Where an agreement between the Group as borrower and lender is signed to replace the original financial liability and the contractual terms of the new financial liability and the original financial liability are substantially different, the Group derecognised the original financial liability and recognised the new financial liability.

On derecognition of a financial liability in its entirety or partially, the difference between the carrying amount of the part derecognised and the consideration paid (including any non-cash asset transferred or new financial liability assumed) is recognised in profit or loss for the period.

#### *10.4.3 Equity instruments*

Equity instruments are any contract that evidences a residual interest in the assets of the Group after deducting all of its liabilities. Equity instruments issued (including refinancing), repurchased, sold or cancelled by the Group are treated as changes in equity. Changes in fair value of equity instruments is not recognised by the Group. Transaction costs related to equity transactions are deducted from equity.

The Group recognises the distribution to holders of the equity instruments as profit distribution, dividends paid do not affect total amount of shareholders' equity.

## ***10.5 Derivative instruments***

Derivative instruments including forward foreign exchange contracts, interest rate swap contracts and foreign exchange option contracts, etc. Derivatives are initially measured at fair value on the signing dates of the relevant contracts and subsequently measured at fair value.

## ***10.6 Offsetting financial assets and financial liabilities***

Financial assets and financial liabilities are offset and the net amount is presented in balance sheet when the Group has a legally enforceable right to set off the recognised financial assets and financial liabilities, and the Group intends to settle with net amount, or realise the financial asset and settle the financial liability simultaneously. Otherwise, the financial assets and financial liabilities will be presented separately in balance sheet and will not be mutually set off.

## ***10.7 Reclassification of financial instruments***

When the Group changes the business model to manage the financial assets, all of the financial assets affected will be reclassified and no financial liabilities will be reclassified.

The financial assets are reclassified by the Group and are accounted for prospectively since the date of reclassification (i.e. the first date of the first reporting period after the business model of which the financial assets are reclassified by the enterprise is changed).

Where a financial asset at FVTOCI is reclassified as a financial asset at amortised cost by the Group, the accumulated gains or losses previously recognised in other comprehensive income are transferred out and the fair value is adjusted as the fair value at the date of reclassification. The adjusted fair value is recognised as the new carrying amount, as if the financial asset had been measured at amortised cost. The reclassification of the financial asset does not affect the measurement of its effective interest rate and expected credit loss.

## **10.8 Convertible bonds**

The convertible bonds issued by the Group which contain liabilities and conversion options, shall be split upon initial recognition and recognised separately. Of which, conversion options for settlement of fixed amount of cash or other financial assets in exchange for fixed amount of self-equity instruments is accounted for as equity instruments.

On initial recognition, the fair value of the liability portion is determined at current market prices similar to those of bonds without conversion options. The difference between the overall issue price of convertible bonds and the fair value of the liability portion shall be taken as the value of the conversion options of the bondholders to convert the bonds into equity instruments and recorded in other equity instruments.

In the subsequent measurement, the liability portion of convertible bonds are measured at amortised cost using the effective interest rate method. The value of the conversion option divided into equity instruments continues to be retained in the equity instruments. No loss or gain is incurred when a convertible bond expires or is converted.

The transaction costs incurred in issuing convertible bonds shall be apportioned between the liability component and the equity component according to their respective fair value. Transaction costs related to the equity component are directly recorded in the equity instruments; transaction costs related to the liability component are recorded in the carrying amount of the liability and amortised over the term of the convertible bonds using the effective interest rate method.

## 11. Bills receivable

### *Portfolio category and determination method of provisions for bad debt assessed collectively by credit risk characteristics*

Except for bills receivable assessed individually by credit risks, the remaining bills receivable are divided into different groups based on their credit risk characteristics:

<b>Category</b>	<b>Determination basis</b>
Low risk	Bank acceptance bills or commercial acceptance bills issued by a related party
Normal	Other bills receivable except low-risk category

## 12. Trade receivables

### ***Portfolio category and determination method of provisions for bad debt assessed collectively by credit risk characteristics***

The Group divides the trade receivables into low risk, normal, concerned and loss based on common risk characteristics. The common credit risk characteristics adopted by the Group include: type of trade receivables, credit risk rating, overdue status, the industry and the company size of the debtor, trade receivables age, etc.

### ***Calculation method of determination of portfolios of credit risk characteristics based on the age***

The Group adopts the age of trade receivables as the credit risk characteristics, and determines the credit losses using impairment matrix. The age shall be calculated from the revenue recognition date. If the terms and conditions of trade receivables are amended but do not lead to termination of the recognition of trade receivables, the age shall be calculated continuously. If the contract assets are converted to trade receivables, the age shall be calculated continuously from the date of initial recognition of the corresponding contract assets.

### ***Judgment standard of provisions for bad debt assessed individually***

The Group assesses credit risks individually for trade receivables for which objective evidence indicates that the amount cannot be recovered according to the existing terms of trade receivables.

## 13. Inventories

### ***13.1 Classification of inventories, pricing delivered, inventory system, amortization method for low-value consumables and packaging***

#### *13.1.1 Classification of inventories*

The Group's inventories mainly include raw materials, low-value consumables, works in progress and finished goods, etc. Inventories are initially measured at cost, which comprises purchase costs, processing costs and other expenses incurred in bringing the inventories to their current location and condition.

#### *13.1.2 Pricing of inventories delivered*

The actual cost of inventories upon delivery is calculated using the weighted average method.

#### *13.1.3 Inventory system*

The inventory system is a perpetual inventory system.

#### *13.1.4 Amortisation of low-value consumables*

Low-value consumables are amortised using one-off write-off method.

### ***13.2 Determination and provision for impairment of inventories***

At the balance sheet date, inventories are measured at the lower of cost and net realisable value. If the net realisable value is below the cost of inventories, a provision for impairment of inventories is made.

Net realisable value is the estimated selling price of inventories in the ordinary course of business less the estimated costs to completion, estimated selling expenses and related taxes. Net realisable value of inventories is determined on the basis of clear evidence obtained, taking into account the purpose of holding inventories and the effect of events after the balance sheet date.

Provision for impairment of inventories is made based on the excess of cost over net realisable value of individual inventory item.

After the provision for impairment of inventories is made, if the circumstances that previously caused inventories to be written-off no longer exist so that the net realisable value of inventories is higher than their carrying amount, the original provision for impairment of inventories is reversed and the reversed amount is recognised in profit or loss for the period.

## **14. Long-term Equity Investments**

### ***14.1 Basis of determination of joint control and significant influence***

For details of basis of determination of control, please refer to Note (III)7. Joint control refers to the joint control over an arrangement according to relevant agreements, and the related activities of the arrangement can only be decided after the consensus of the parties sharing the control. Significant influence refers to the power to participate in the decision-making of the financial and operational policies of the investee, but cannot control or jointly control the formulation of these policies with other parties. In determining whether it is possible to exercise control over or exert significant influence over the invested entities, it has taken into account the potential voting right factors such as the current convertible bonds and the current executable warrants of the invested entities held by the investor and other parties.

## **14.2 Determination of initial investment cost**

For a long-term equity investment acquired through a business combination involving enterprises under common control, the initial investment cost is the attributable share of the carrying amount of the owners' equity of the acquiree in the consolidated financial statements of the ultimate controlling party at the date of combination. The difference between the initial investment cost of a long-term equity investment and the carrying amount of cash paid, non-cash assets transferred and liabilities assumed is adjusted to capital reserve. If the capital reserve is insufficient to offset the difference, the retained earnings shall be adjusted. Where the consideration of the combination is satisfied by the issue of equity securities, the initial investment cost is the attributable share of the carrying amount of the owners' equity of the acquiree in the consolidated financial statements of the ultimate controlling party at the date of combination, and the total nominal value of the shares issued is recognised as share capital. The difference between the initial investment cost of a long-term equity investment and the total nominal value of the shares issued is adjusted to capital reserve. If the capital reserve is insufficient to offset the difference, the retained earnings shall be adjusted. Other comprehensive income recognised for the previously held equity investments by accounting treatment of equity method or investments in non-trading equity instruments designated as at FVTOCI is not subject to accounting treatment temporarily.

For a long-term equity investment acquired through a business combination not involving enterprises under common control, the initial investment cost is the combination cost at the date of acquisition. If the equity investment previously held was classified as investments in non-trading equity instruments designated as at FVTOCI, the difference between the fair value and carrying amount, together with the accumulated fair value previously included in other comprehensive income are transferred to retained earnings.

The intermediary expenses incurred by the acquirer or purchaser in respect of auditing, legal services, valuation and consultancy services, etc. and other related administrative expenses attributable to the business combination are recognised in profit or loss in the period in which they are incurred.

The long-term equity investment acquired other than through a business combination is initially measured at its cost.

### **14.3 Subsequent measurement and recognition of profit or loss**

#### *14.3.1 Long-term equity investments accounted for using the cost method*

Long-term equity investments in subsidiaries are accounted for using the cost method in the financial statements of the Company. A subsidiary is an investee that is controlled by the Group.

Long-term equity investments accounted for using the cost method are measured at initial investment cost. When additional investment is made or the investment is recouped, the cost of the long-term equity investment is adjusted accordingly. The current investment income is recognised in accordance with the cash dividends or profit distributions declared by the investee.

#### *14.3.2 Long-term equity investment accounted for by equity method*

The Group's investment in associates is accounted for by equity method. Associates refer to invested entities to which the Group can exert a significant influence.

When adopting equity method accounting, if the initial investment cost of long-term equity investment exceeds the share of the fair value of identifiable net assets of the invested entity at the investment date, no adjustment shall be made to the initial investment cost of long-term equity investment. If the initial investment cost is less than the share of the fair value of identifiable net assets of the invested entity at the investment date, the difference shall be charged to current profit or loss, and the long-term equity investment cost shall be adjusted at the same time.

When adopting equity method accounting, the investment income and other comprehensive income shall be recognised separately according to the share of net profit or loss and other comprehensive income realised by the invested entity, and the carrying amount of long-term equity investment shall be adjusted at the same time; the carrying amount of long-term equity investment shall be reduced accordingly by calculating the portion to be enjoyed according to the profit or cash dividend declared by the invested entity; the carrying amount of long-term equity investment shall be adjusted and included in the capital reserve for other changes in the owner's rights and interests of the invested entity except net profit or loss, other comprehensive income and profit distribution. When recognising the share of the net profit or loss of the invested entity, the net profit of the invested entity shall be adjusted and recognised on the basis of the fair value of the identifiable assets of the invested entity at the acquisition date. If the accounting policies and periods adopted by the invested entity are inconsistent with those of the Company, the financial statements of the invested entity shall be adjusted in accordance with the accounting policies and period of the Company. The investment income and other comprehensive income shall be recognised accordingly. For transactions between the Group and associates, the assets invested or sold do not constitute business, and the unrealised gains and losses of internal transactions are offset by the shareholding attributable to the Group. On this basis, the investment gains and losses are recognised. However, the unrealised internal transaction losses between the Group and the invested entity shall not be offset if they belong to the impairment losses of the transferred assets.

The Group discontinues recognising its share of net losses of the invested entity after the carrying amount of the long-term equity investment together with any long-term interests that in substance form part of its net investment in the invested entity is reduced to zero. In addition, if the Group has incurred obligations to assume additional losses of the invested entity, estimated liability is recognised according to the expected obligation, and recorded as investment loss for the period. Where net profits are subsequently made by the invested entity, the Group resumes recognising its share of those profits only after its share of the profits exceeds the share of losses previously not recognised.

#### **14.4 Disposal of long-term equity investments**

On disposal of a long-term equity investment, the difference between the carrying amount and the actual purchase price is recognised in profit or loss for the period.

### **15. Investment Properties**

The Group adopts the cost model for subsequent measurement of investment properties, and is depreciated using the straight-line method over their estimated useful lives. The depreciation methods, depreciation period, residual value rate and annual depreciation rate of investment properties is as follows:

<b>Class</b>	<b>Depreciation Method</b>	<b>Depreciation Period (Years)</b>	<b>Residual Value Rate (%)</b>	<b>Annual Depreciation Rate (%)</b>
Houses and buildings	Straight-line depreciation	20	5	4.75
Land use rights	Straight-line depreciation	50	–	2.00

### **16. Fixed Assets**

#### **16.1 Conditions of recognition**

Fixed assets are tangible assets that are held for use in the production of goods or supply of services, for rental to others, or for administrative purposes and have a useful life of more than one accounting year. A fixed asset is recognised only when the economic benefits associated with the asset are probable to flow to the Group and the cost of the asset can be measured reliably. Fixed assets are initially measured at cost.

Subsequent expenditures incurred for a fixed asset are included in the cost of the fixed asset if it is probable that the economic benefits associated with the asset will flow to the Group and the cost of the asset can be measured reliably, and the carrying amount of the replaced part is derecognised. Other subsequent expenditures other than the above are charged to profit or loss for the current period when incurred.

## 16.2 Depreciation methods

Class	Depreciation Method	Depreciation Period (Years)	Residual Value rate (%)	Annual Depreciation Rate (%)
Houses and buildings	Straight-line depreciation	20-25	- or 5	4.00-5.00
Machinery and equipment	Straight-line depreciation	4-20	- or 5	4.75-23.75
Transportation equipment	Straight-line depreciation	4-15	- or 5	6.67-23.75
Other equipment	Straight-line depreciation	3-10	- or 5	9.50-33.33

Estimated net residual value of a fixed asset is the estimated amount that the Group would currently obtain from disposal of the asset, after deducting the estimated costs of disposal, if the asset were already of the age and in the condition expected at the end of its useful life.

## 17. Construction in Progress

Construction in progress is measured at actual cost, which includes various construction expenditures incurred during the construction period, capitalised borrowing costs before the construction is ready for its intended use and other relevant costs. Construction in progress is not depreciated.

Construction in progress is transferred to fixed asset while it is ready for its intended use. The standards and time points for various construction in progress carried forward to fixed assets are as follows:

<b>Class</b>	<b>The standard and time point of carried forward to fixed assets</b>
Houses and buildings	Time point of meeting the relevant construction acceptance standards
Machinery and equipment, transportation equipment and other equipment	Time point of meeting the design requirements or standards under the contract after installation and commissioning

## 18. Borrowing Costs

The borrowing costs that are directly attributable to the acquisition, construction or production of a qualifying asset are capitalised when expenditures for the asset are being incurred, borrowing costs are being incurred and activities relating to the acquisition, construction or production of the asset that are necessary to prepare the asset for its intended use or sale have commenced. The capitalisation of qualifying assets under construction or production ceases when the assets are ready for their intended use or sale. The remaining borrowing costs are recognised as expenses in the period in which they are incurred.

Where funds are borrowed under a special borrowing, the amount to be capitalised is the actual interest expense incurred on that borrowing for the period less any interest income earned from depositing the unused borrowing funds into bank or any investment income on the temporary investment of those funds. Where funds are borrowed under a general borrowing, the amount capitalised is determined by applying the weighted average of the excess amounts of cumulative expenditures on the asset over the special borrowings multiplied by the capitalisation rate of the general borrowings used. The capitalisation rate is determined based on the weighted average interest rate of the general borrowings. During the capitalisation period, the exchange differences on special foreign currency borrowings are all capitalised; the exchange differences on general-purpose foreign currency borrowings are recognised in profit or loss for the period.

## **19. Intangible Assets**

### ***19.1 Useful life and determination basis, estimate, amortization method or review procedure***

Intangible assets include software, pollutant discharge rights, mining rights, land use rights, energy consumption rights and maritime right of use, etc.

The intangible assets shall be initially measured at cost. When an intangible asset with a finite useful life is available for use, its original cost less net residual value and any accumulated impairment losses is amortised over its estimated useful life using the straight-line method. Intangible assets are not amortised while their useful lives are assessed to be indefinite. The amortisation method, useful life and estimated net residual value rate of each class of intangible assets are as follows:

<b>Class</b>	<b>Amortisation method</b>	<b>Useful life and determination basis (Years)</b>	<b>Residual value rate (%)</b>
Land use rights	Straight line method	40-50, legal right to use	–
Pollutant discharge rights	Straight line method	3-20, estimated useful life	–
Mining rights	Output method	–	–
Software	Straight line method	10, estimated useful life	–
Maritime right of use	Straight line method	50, Legal right to use	–
Energy consumption rights	Intangible assets with an indefinite useful life are not amortised		

At the end of the year, the useful life and amortisation method of intangible assets with finite useful lives are reviewed and adjusted if necessary.

## ***19.2 Collection scope and relevant accounting treatment of R & D expenses***

The allocation scope of R&D expenditures includes the salaries and compensation paid to personnel working on R&D, materials consumed during R&D work and other expenses. Expenditures incurred in the research stage are recognised in profit or loss for the period.

Expenditures incurred in the development stage are recognised as intangible assets only when all of the following conditions are satisfied, and the expenditures in the development stage that does not meet all of the following conditions are recognised in profit or loss for the period:

- (1) The technical feasibility of completing the intangible asset so that it will be available for use or sale;
- (2) The intention to complete the intangible asset and use or sell it;
- (3) The way in which the intangible asset generates economic benefits, including the ability to prove that there is a market for the product produced using the intangible asset or the intangible asset itself has a market, and prove its usefulness if the intangible asset will be used internally;
- (4) Adequate technical, financial and other resources to complete the development of the intangible asset and to use or sell the intangible asset;
- (5) The ability to measure reliably the expenditures attributable to the intangible asset during its development.

If the expenditures cannot be distinguished between the research stage and development stage, the Group recognises all of them in profit or loss for the period. The cost of the intangible asset formed by internal development activities only includes the total expenditure incurred from the time when the capitalisation conditions are met to the time when the intangible asset reaches the intended purpose. The expenditures that have been expensed into profit and loss before the capitalisation conditions are met for the same intangible asset in the development process will not be adjusted.

## **20. Impairment of Long-term Assets**

The Group assesses at each balance sheet date whether there is any indication that long-term equity investments, investment properties, fixed assets, construction in progress measured using the cost method and intangible assets with finite useful lives may be impaired. If an impairment indication exists, the recoverable amount is estimated. Intangible assets with indefinite useful life and intangible assets not yet available for use are tested for impairment annually, irrespective of whether there is any indication that the assets may be impaired.

If the estimated recoverable amount of an asset is based on a single asset and it is difficult to estimate the recoverable amount of a single asset, the recoverable amount of the asset group shall be determined on the basis of the asset group to which the asset belongs. The recoverable amount is the higher of an asset's or asset Group's fair value less costs of disposal and the present value of the estimated future cash flows.

If the recoverable amount of an asset is less than its carrying amount, a provision for impairment of the asset is made based on the difference and recognised in profit or loss for the period.

An impairment loss once recognised shall not be reversed in a subsequent accounting period.

## **21. Long-term Deferred Expenses**

Long-term deferred expenses are expenses which have incurred but shall be amortised over the current period and subsequent periods of more than one year. Long-term deferred expenses are amortised evenly over the estimated benefit period.

## **22. Contract Liabilities**

A contract liability represents the Group's obligation to transfer goods or services to a customer for which the Group has received consideration (or an amount of consideration is due) from the customer. Contract assets and contract liabilities under common contract are presented on a net basis.

## **23. Employee Compensation**

### ***23.1 Accounting for short-term employee compensation***

In the accounting period in which an employee has rendered services, the Group recognises the short-term employee compensation actually incurred as liabilities, and includes in profit or loss for the period or related asset costs. The employee benefits expenses incurred by the Group are recognised in profit or loss for the period or related asset costs based on the actual amount when actually incurred. The nonmonetary employee benefits expenses are measured at fair value.

In determining the corresponding amount of employee compensation, social security contributions such as medical insurance, work injury insurance and maternity insurance and housing funds, as well as labour union running expenses and employee education expenses provided by the Group are calculated according to the prescribed provision bases and percentages during the accounting period in which the employees provide services to the Group, and the corresponding liabilities are recognised, and included in profit or loss for the period or related asset costs.

### ***23.2 Accounting for post-employment benefits***

Post-employment benefits are all defined contribution plans.

In the accounting period in which an employee has rendered service, the Group recognises the amount payable under the defined contribution plan as a liability, and includes in profit or loss for the period or related asset costs.

### ***23.3 Accounting for termination benefits***

When the Group provides termination benefits to employees, employee compensation liabilities arising from termination benefits are recognised in profit or loss at the earlier of the following dates: when the Group cannot unilaterally withdraw the termination benefits provided because of an employee termination plan or a layoff proposal, or when the Group confirms the costs or expenses related to the restructuring involving the payment of dismiss benefits.

## 24. Provisions

Obligations related to product quality guarantee contingencies are recognised as provisions when the Group has a current obligation, it is probable that an outflow of economic benefits will be required to settle the obligation, and the amount of the obligation can be measured reliably.

On the balance sheet date, provision shall be measured at the best estimate of the expenditure for settling the current obligation, taking into account the risk and uncertainty and time value of money and other factors related to the contingencies. Where the effect of the time value of money is material, the best estimate of the expenditure is determined by discounting the expected future cash outflows.

## 25. Share-based Payments

The Group's share-based payments are transactions in which equity instruments are granted to employees in exchange for services rendered by employees or for the assumption of liabilities based on equity instruments. The Group's share-based payments are equity-settled share-based payments.

### 25.1 *Equity settled share-based payments*

#### *Equity-settled share-based payments to employees*

Equity-settled share-based payments to employees in exchange for services rendered by employees are measured at the fair value of the equity instruments granted to employees at the grant date. Such amount is recognised as related costs or expenses on a straight-line basis over the vesting period, based on the best estimate of the number of equity instruments expected to vest./When the grant is vested immediately, the amount of the fair value is included in the related costs or expenses on the grant date, with a corresponding increase in capital reserve.

At each balance sheet date during the pending period, the Group, based on the latest subsequent information such as the latest update on the change in the number of entitled employees, makes best estimates to adjust the expected number of equity instruments that can be vested. The effect of the above estimate is included in relevant costs or expenses for the period and the capital reserve is adjusted accordingly.

## ***25.2 Accounting treatment in relation to implementation, modification and termination of share-based payment plan***

When the Group modifies the share-based payment plan, and if such modification increases the fair value of the equity instruments granted, the increase in services received will be recognised accordingly following the increase in fair value of the equity instruments. If the modification increases the number of the equity instruments granted, the increase in fair value of the equity instruments will be recognised accordingly as the increase in services received. The increase in fair value of the equity instruments refers to the difference in fair value on the date of modification before and after the modification in respect of the equity instruments. If the modification reduces the total fair value of the share-based payments or adopts any form that is unfavorable to employees to modify the terms and conditions of the share-based payment plan, accounting treatment will be continued to be conducted in respect of the services received and the modification will be deemed to have never occurred, unless the Group had cancelled part or all of the equity instruments granted.

During the pending period, if the equity instruments granted are cancelled, the Group will undertake an accelerated vesting in respect of the cancelled equity instruments that had been granted, include the remaining amount that shall be recognised during the pending period in the profit and loss for the period immediately and recognise capital reserve accordingly. Where employees or other parties are permitted to choose to fulfill non-vesting conditions but have not fulfilled during the pending period, the Group will treat the granted equity instruments as cancelled.

## 26. Revenue

The Group's revenue is mainly derived from the sales of glass products, which mainly include photovoltaic glass, household glass, architectural glass, float glass and mining products, etc. Revenue from other business mainly represents rental income from properties and sales income of materials.

The Group recognises revenue based on the transaction price allocated to such performance obligation when a performance obligation is satisfied, i.e. when "control" of the goods or services underlying the particular performance obligation is transferred to the customer. A performance obligation represents the commitment that a good and service that is distinct shall be transferred by the Group to the customer. The transaction price is the amount of consideration to which the Group expects to be entitled in exchange for transferring promised goods or services to a customer, excluding amounts collected on behalf of third parties and amounts expected to be refunded to a customer.

For the performance obligations to be performed during a certain period of time, the Group recognises revenue over time by reference to the progress of a performance obligation if one of the following criteria is met: (1) the customer receives and consumes the economic benefits brought by the Group while performing obligations; (2) the customer can control the goods under construction during the performance of the Group; (3) the goods produced during the performance of the Group have irreplaceable uses, and the Group has the right to receive payment for the part of the completed performance so far throughout the contract period. Otherwise, the Group will recognise revenue at the time point when the customer obtains control over relevant goods or services.

## **27. Government Grants**

Government grants are transfer of monetary assets and non-monetary assets from the government to the Group at no consideration. A government grant is recognised only when the Group can comply with the conditions attaching to the grant and the Group will receive the grant.

If a government grant is in the form of monetary asset, it shall be measured at the amount received or receivable.

### ***27.1 Judgement basis and accounting treatment of government grants related to assets***

A government grant related to assets is recognised as deferred income and included in current profit or loss over the useful life of the related asset using the straight-line method.

### ***27.2 Judgement basis and accounting treatment of government grants related to revenue***

A government grant related to revenue used to compensate for relevant costs, expenses and losses in subsequent periods is recognised as deferred income, and is included in profit or loss for the period directly over the periods in which the relevant costs, expenses or losses are recognised. The government grants related to revenue used to compensate for relevant costs, expenses or losses already incurred is included in profit or loss for the period directly.

The government grants related to the Group's daily activities are included in other income/offset the relevant costs and expenses according to the nature of economic business. Otherwise, government grants are included in non-operating income.

## **28. Deferred Income Tax Assets/Deferred Income Tax Liabilities**

Income tax expenses comprise current income tax expense and deferred income tax expense.

### ***28.1 Current income tax***

At the balance sheet date, current income tax liabilities (or assets) for the current and prior periods are measured at the amount expected to be paid (or recovered) according to the requirements of tax laws.

### ***28.2 Deferred income tax assets and deferred income tax liabilities***

For temporary differences between the carrying amount of certain assets or liabilities and their tax base, or between the carrying amount of those items that are not recognised as assets or liabilities but the tax base can be determined according to tax laws and their tax base, deferred income tax assets and deferred income tax liabilities are recognised using the balance sheet liability method.

Deferred income tax is generally recognised for all temporary differences. However, as for deductible temporary differences, deferred income tax assets are recognised to the extent that it is probable that taxable profits will be available against which the deductible temporary differences can be utilised. In addition, for temporary differences associated with the initial recognition of goodwill and the initial recognition of an asset or liability arising from a transaction (not a business combination) that affects neither the accounting profit nor taxable profit (or deductible loss) at the time of transaction, no deferred income tax asset or liability is recognised.

For deductible losses and tax credits in subsequent years that can be carried forward, deferred income tax assets are recognised to the extent that it is probable that future taxable profits will be available against which the deductible losses and tax credits can be utilised.

Deferred income tax liabilities are recognised for taxable temporary differences associated with investments in subsidiaries, except where the Group is able to control the timing of the reversal of the temporary difference and it is probable that the temporary difference will not reverse in the foreseeable future. Deferred income tax assets arising from deductible temporary differences associated with the investments in subsidiaries are only recognised to the extent that it is probable that there will be sufficient taxable profits against which to utilise the benefits of the temporary differences and they are expected to reverse in the foreseeable future.

At the balance sheet date, deferred income tax assets and deferred income tax liabilities are measured at the tax rates that are expected to apply to the period when the asset is realised or the liability is settled according to the requirements of tax laws.

Current and deferred income tax expenses or income are recognised in profit or loss for the period, except when they arise from transactions or events that are directly recognised in other comprehensive income or in shareholders' equity, in which case they are recognised in other comprehensive income or in shareholders' equity; and when they arise from business combinations, in which case they are adjusted to the carrying amount of goodwill.

The carrying amount of a deferred income tax asset is reviewed at each balance sheet date and is reduced to the extent that it is probable that sufficient taxable profits will not be available to offset the benefits of deferred income tax assets. Any such reduction is reversed to the extent that it becomes probable that sufficient taxable profits will be available.

### ***28.3 Offsetting of income tax***

When the Group has a legal right to settle on a net basis and intends either to settle on a net basis or to realise the assets and settle the liabilities simultaneously, current tax assets and current tax liabilities are offset and presented on a net basis.

When the Group has a legal right to settle current tax assets and liabilities on a net basis, and deferred income tax assets and deferred tax liabilities relate to income taxes levied by the same taxation authority on either the same taxable entity or different taxable entities which intend either to settle current tax assets and liabilities on a net basis or to realise the assets and settle the liabilities simultaneously, in each future period in which significant amounts of deferred income tax assets or liabilities are expected to be reversed, deferred income tax assets and deferred tax liabilities are offset and presented on a net basis.

## 29. Lease

### ***Judgment basis and accounting treatment method for the lessee to simplify the treatment of short-term lease and low-value asset lease***

For short-term leases and low-value leases of machinery and equipment, the Group chooses the right-of-use assets and lease liabilities that are not certain to use. Short-term lease is defined as a lease has a lease term of no more than 12 months and excludes a purchase option from the lease commencement date. Low-value asset lease refers to the lease with lower value when a single leased asset has low value when it is new. The Group will include the lease payments for short-term leases and leases of low value assets in profit or loss for the period or related asset costs using the straight-line method.

### ***Lease classification standard and accounting treatment method for the lessor***

Leases are classified as finance leases whenever the terms of the lease transfer substantially almost all the risks and rewards of ownership to the lessee. All other leases are classified as operating leases.

The Group recognises lease payments for operating leases as rental income by using the straight-line method in each period of the lease term. Initial direct costs related to the Group's operating leases are capitalised when incurred, are allocated on the same basis as rental income over the lease term and are charged to profit or loss for the period in stages.

## (IV) TAXATION

### 1. Major Types of Tax and Tax Rates

Tax type	Tax basis	Tax rate
Value-added tax (VAT)	Taxable value-added amount (the tax payable is calculated on the taxable sales amount multiplied by the applicable tax rate (output-VAT) less deductible input- VAT for the current period)	13%
Urban maintenance and construction tax	Turnover tax payment	5% or 7%
Education surcharge	Turnover tax payment	3%
Local educational surcharges	Turnover tax payment	2%
Property tax	Cost of properties/rental income	Note 1
Resources tax	Amount of mining products sold	7%
Enterprise income tax (EIT)	Taxable income	For details, please see the table of disclosures of taxpayers of different corporate income tax rates
Environmental protection tax	Pollutant emissions	RMB1.2 or RMB1.4 or RMB4.8 per pollutant equivalent

Note 1: The property tax of self-use property is calculated at 70% of the original value of the real estate and at a rate of 1.2%; the property tax of leased buildings is calculated at 12% of rental income.

## 2. Tax Preferences

### *The Company*

On 24 December 2022, the Company obtained the “High Technology Enterprise Certificate” (No. GR202233007200) jointly approved by the Science and Technology Department of Zhejiang Province, Zhejiang Provincial Department of Finance, Zhejiang Provincial Tax Service, State Taxation Administration for a valid period of three years, pursuant to which, the EIT rate of 15% is applied from 2022 to 2024.

### *Zhejiang Jiafu Glass Co., Ltd.*

On 24 December 2022, Zhejiang Jiafu Glass Co., Ltd. obtained the “High Technology Enterprise Certificate” (No. GR202233006951) jointly approved by the Science and Technology Department of Zhejiang Province, Zhejiang Provincial Department of Finance, Zhejiang Provincial Tax Service, State Taxation Administration for a valid period of three years, pursuant to which, the EIT rate of 15% is applied from 2022 to 2024.

### *Anhui Flat Solar Glass Co., Ltd.*

On 16 October 2023, Anhui Flat Solar Glass Co., Ltd. obtained the “High Technology Enterprise Certificate” (No. GR202334000506) jointly approved by the Science and Technology Department of Anhui Province, Anhui Provincial Department of Finance, the State Taxation Bureau of Anhui Province and the Local Taxation Bureau of Anhui Province, for a valid period of three years, pursuant to which, the EIT rate of 15% is applied from 2023 to 2025.

### *Flat (Vietnam) Company Limited*

Pursuant to the Project Investment License approved by the Vietnam Haiphong Economic Zone Authority on 30 June 2016, Flat (Vietnam) Company Limited is exempted from EIT for four years commencing from the first profit-making year, followed by a 50% reduction in EIT for the next nine years. Flat (Vietnam) Company Limited has started to make profits since 2021.

#### Defined contribution plan:

The Group participates in pension insurance and unemployment insurance schemes established by government agencies as required. According to these schemes, the Group pays monthly fees to these plans at 14.0% and 0.5% of the employees' basic wages. The Group's subsidiaries in the Anhui, Shanghai and Nantong regions, makes monthly contribution to these schemes at 16.0% and 0.5% of employees' basic salary, while Flat (Vietnam), a subsidiary of the Group, makes monthly contribution to these schemes at 17.0% and 1.0% of employees' basic salary. Except for the above monthly paid fees, the Group does not undertake further payment obligations. The corresponding expenses are recognised in profit or loss in the period in which they are incurred.

During the period, the Group shall pay a total of RMB37,601,568.88 and RMB1,323,328.67 to the pension insurance and unemployment insurance schemes respectively. As of 30 June 2024, RMB2,334,728.60 and RMB68,511.16 had been accrued but unpaid for the pension insurance and unemployment insurance schemes, respectively. Such payables were contributed after the reporting period.

### **(3) Description of conditions and timing of conversion for convertible bonds**

As approved by the China Securities Regulatory Commission, the Company publicly issued 40 million A share convertible corporate bonds with a par value of RMB100 each on 20 May 2022. The total amount of this issuance is RMB4,000,000,000.00 and the term is 6 years. Pursuant to the Rules Governing the Listing of Stocks on Shanghai Stock Exchange and other relevant regulations and the Prospectus of A Share Convertible Corporate Bond through Public Issuance of Flat Glass Group Co., Ltd., the Convertible Bonds can be converted into the RMB ordinary shares (A shares) of the Company from 28 November 2022. The initial conversion price is RMB43.94 per share. The Company will adjust the conversion price based on the prospectus upon the occurrence of distribution of stock dividend, capitalisation issue, issuance of new shares (excluding the increase in share capital due to the convertible corporate bonds in this issuance), rights issue or distribution of cash dividend. On 23 November 2022, the Company adjusted the conversion price to RMB43.71 per share based on the 2022 interim profit distribution proposal. During the period from 28 November 2022 to 31 December 2022, the convertible bonds of the Company amounting to RMB32,000 were converted into 713 RMB ordinary shares (A shares) at a conversion price of RMB43.71 per share. Due to the conversion of convertible bonds in 2022, the registered capital of the Company increased by RMB178.25, the number of shares increased by 713 shares and the capital reserve increased by RMB32,400.14. On 4 August 2023, the Company adjusted the conversion price from RMB43.71 per share to RMB42.46 per share based on the issuance of A Shares to specific subscribers. On 27 November 2023, the Company adjusted the conversion price from RMB42.46 per share to RMB42.22 per share based on the 2023 interim profit distribution proposal. During the period from 1 January 2023 to 31 December 2023, the convertible bonds of the Company amounting to RMB42,000 were converted into 967 RMB ordinary shares (A shares). Due to the conversion of convertible bonds in 2023, the registered capital of the Company increased by RMB241.75, the number of shares increased by 967 shares and the capital reserve increased by RMB45,951.80. During the period from 1 January 2024 to 30 June 2024, the convertible bonds of the Company amounting to RMB2,000 were converted into 46 RMB ordinary shares (A shares). Due to the conversion of convertible bonds from January to June 2024, the registered capital of the Company increased by RMB11.50, the number of shares increased by 46 shares and the capital reserve increased by RMB1,866.49.

The annual coupon rate shall be 0.3% in the first year, 0.5% in the second year, 1.0% in the third year, 1.5% in the fourth year, 1.8% in the fifth year and 2% in the sixth year. The payment method that interest shall be paid on an annual basis shall be adopted and the principal shall be repaid and the interest for the last year shall be paid. The term of the A Share Convertible Corporate Bonds under the issuance shall be six years from the date of the issuance, namely 20 May 2022 to 19 May 2028. The conversion period of the A Share Convertible Bonds under the issuance shall commence on the first trading day immediately following the expiry of the six-month period after the date of the issuance of the convertible bonds (26 May 2022), and end on the maturity date of the convertible bonds (28 November 2022 to 19 May 2028). The fair value of the liability component was estimated at the issue date using an equivalent market interest rate for a similar bond without the attached purchase warrants. The residual amount was assigned as the equity component and included in shareholders' equity.

Others	8,780,391.84	7,520,158.99
Total	<u>10,695,995,497.44</u>	<u>8,152,106,505.23</u>

### (3) *Performance obligations*

The Group's main business activities are the production and sales of glass products. Generally, there is only one performance obligation to deliver goods in the relevant sales contract, and the consideration for the sale of the product is determined according to the fixed price agreed in the sales contract or order. The Group recognises the revenue at the time when the control of the relevant product is transferred to the customer.

## 45. TAXES AND SURCHARGES

	<i>RMB</i>	
<b>Items</b>	<b>Amount for the period</b>	Amount for last period
Resource tax	<b>24,770,327.54</b>	38,406,274.13

Total	<b><u>21,165,193,477.28</u></b>	<b><u>19,643,586,781.36</u></b>

The risks related to financial instruments and the risk management policies for risk mitigation of the Group are stated as following. The management of the Company will management and supervise these risk exposures in order to ensure that proper measures are taken expeditiously.

## 1. RISK MANAGEMENT OBJECTIVES AND POLICIES

The risk management objectives of the Group are to obtain an appropriate balance between risk and return, to reduce negative effects caused by operating results to a lowest level, and to maximize interest of shareholders and other equity investors. Based on these objectives, the basic strategies are to confirm and analyze all potential risks related to the Group, to set appropriate risk limitations, to manage and monitor all risks timely and effectively, and to control the risks within a limited scope.

### **1.1 Market risk**

The Group's business has caused its financial risks due to the changes in interest rates and foreign exchange rates. The Group believes that the above risks during the year or the manner in which they are managed and measured have not been changed compared to the previous year.

#### *1.1.1 Foreign exchange risk*

Foreign exchange risk refers to the risk of loss arising from the losses in exchange rate. The operating economic environment of the Company and its major subsidiaries is China and Vietnam whose functional currencies are RMB and VND. Some of the Group's transactions are settled in currencies other than functional currencies such as USD, EUR, JPY, HKD, GBP and AUD, and are subject to the resulting foreign exchange risk.

As at 30 June 2024, the Group's foreign currency assets and liabilities are set out below. The foreign exchange risk arising from the assets and liabilities of these foreign currency balances (see Notes Foreign Currency Items) may impact the Group's operating results.

*RMB*

<b>Items</b>	<b>Closing balance</b>	Opening balance
Cash and cash equivalents	<b>1,432,664,992.36</b>	1,269,081,381.14
Trade receivables	<b>1,009,063,824.99</b>	690,717,533.42
Other receivables	<b>52,687,536.06</b>	3,597.69
Trade payables	<b>38,372,226.36</b>	23,468,801.31
Other payables	<b>6,558,251.67</b>	5,806,942.05
Borrowings	<b>925,139,640.00</b>	792,921,984.00

### *1.1.2 Interest rate risk*

The Group's risks to the changes in cash flows of financial instruments arising from changes in interest rates is primarily related to floating rate bank borrowings and floating rate bank deposits. As at 30 June 2024, the Group's floating borrowings amounted to RMB9,145,586,044.65 (31 December 2023: RMB6,420,362,000.00).

## 1.2 Credit risk

As at 30 June 2024, the maximum credit risk exposure that may cause the Group's credit losses is mainly due to the loss of the Group's financial assets caused by the failure of the other party to perform its obligations and the financial guarantees undertaken by the Group (without considering available collateral or other credit enhancements), specifically: cash at bank and on hand, bills receivable, trade receivables, trade receivables financing, other receivables, etc., trading financial assets and derivative financial assets that are not included in the scope of impairment assessment, etc. At the balance sheet date, the carrying amount of the Group's financial assets has represented its maximum credit risk exposure.

In order to reduce credit risk, the Group has established a team responsible for determining the credit limits and conducting credit approval. At the same time, the Group performs other monitoring procedures to ensure that necessary measures are taken to recover overdue claims. In addition, the Group reviews the recovery of financial assets on each balance sheet date to ensure that adequate credit loss provisions are made for the relevant financial assets. As a result, the management of the Group believes that the credit risk assumed by the Group has been significantly reduced.

The Group's cash at bank and on hand are deposited in banks with higher credit ratings, so cash at bank and on hand is subject to lower credit risk.

As at 30 June 2024, the Group's accounts receivable balance with the top five customers was RMB1,845,170,968.64 (31 December 2023: RMB2,344,969,332.34), accounting for 50.98% of the Group's account receivable balance (31 December 2023: 60.97%). In addition, the Group has no other significant credit risk exposure concentrated on a single financial asset or financial assets group with similar characteristics.

### **1.3 Liquidity risk**

In managing the liquidity risk, the Group maintains and monitors the cash and cash equivalents that the management considers adequate to meet the Group's operational needs and mitigate the impact of fluctuations in cash flows. The management of the Group closely monitors the liquidity situation and expects to have sufficient sources of financing to finance the Group's operations. The management of the Group believes that the Group does not have any significant liquidity risk.

## **2. CAPITAL MANAGEMENT**

The Group manages capital by optimizing the structure of liabilities and shareholders' equity to ensure that entities within the Group maintain operations while maximizing shareholder returns.

The capital structure of the Group consists of the Group's net debt and shareholders' equity.

The Group is not subject to external mandatory capital management requirements.

The Group manages and adjusts the capital structure based on changes in economic conditions. In order to maintain or adjust the capital structure, the Group may adjust dividends to shareholders or obtain additional capital from shareholders. The Group has not made any adjustments to the objectives, policies and processes of capital management.

## (IX.) DISCLOSURE OF FAIR VALUE

### (1) Fair Value of the Closure Balance of Assets and Liabilities Measured at Fair Value

*RMB*

Items	Level 1 fair value measurement	Level 2 fair value measurement	Level 3 fair value measurement	Total
<b>I. Continuous fair value</b>				
(I) Trading financial assets – financial products	-	-	230,000,000.00	230,000,000.00
(II) Trading financial assets – listed company stock	13,187.05	-	-	13,187.05
(III) Financing receivables	-	-	2,060,807,380.16	2,060,807,380.16

**(2) The Basis for Determining the Market Value of the Item Continuing Measured at Level 1 fair Value**

The item continuing to be measured at the level 1 fair value refers to other equity instruments, with fair value quoted in the active market.

**(3) Valuation Techniques and Qualitative and Quantitative Information on Important Parameters Adopted for the Third Level of Continuous Fair Value Measurement**

*RMB*

Items	Fair value as at 30 June 2024	Valuation techniques	Significant unobservable inputs	Scope period
Trading financial assets – bank wealth management products	230,000,000.00	Discounted cash flow method	Expected rate of return of products	3.5%-3.9%
Financing receivables	2,060,807,380.16	Discounted cash flow method	Expected discount rate	1.20%

**(4) Fair Value of Financial Assets and Financial Liabilities Not Measured at Fair Value**

The book value of financial assets and financial liabilities that the Group does not consider to be measured at fair value is similar to the fair value.

## (X.) RELATED PARTIES AND RELATED PARTY TRANSACTION

## (XI.) SHARE-BASED PAYMENTS

### 1. Equity instruments

*Unit: Share*

Classification	Granted during the period	Exercised during the period	Unlocked during the period	Lapsed during the period
2020 A-Share Restricted Share Incentive Scheme	-	-	140,000.00	-
2021 Share Option Incentive Scheme	-	-	-	-
Total	-	-	140,000.00	-

Classification	Share option outstanding at the end of the period		Other equity instruments outstanding at the end of the period	
	Range of exercise price	Remaining contract terms	Range of exercise price	Remaining contract terms
2020 A-Share Restricted Share Incentive Scheme	-	-	RMB7.29	Approximately 1.11 years
2021 Share Option Incentive Scheme	RMB43.79	Approximately 2.4 years	-	-

## 2. Equity settled share-based payments

RMB

	<b>Share option incentive scheme 2021</b>	<b>Restricted A Share Incentive Scheme for 2020</b>
Method for determining the fair value as at the grant date	Black-Scholes Model	Open market quotation of the grant date
Basis for determining the number of equity instruments with exercisable rights	When the optionee reaches the exercise period in the stock option scheme, and meets the appraisal conditions of the Company's results and personal performance, the corresponding equity instrument is the equity instrument of the exercisable right	When the optionee reaches the exercise period in the stock option scheme, and meets the appraisal conditions of the Company's results and personal performance, the corresponding equity instrument is the equity instrument of the exercisable right
Reasons for significant differences of estimate between the current year and the previous period	Nil	Nil
Cumulative amount of equity settled share-based payment recognized into capital reserves	20,749,734.86	88,961,061.26

Determination method of fair value of equity instruments: The Black-Scholes model is used to determine fair value, and the relevant data input to the model on the grant date are as follows:

	<b>2021 Share Option Incentive Scheme</b>
Exercise price of share options	RMB44.02/share
Market price on the grant date of shares	RMB42.89/share
Standard deviation – annualized volatility	14.73%~18.71%
Risk-free interest rate	1.50%~2.75%
Expected duration	5 years

## (XII.) COMMITMENTS AND CONTINGENCIES

### 1. Significant Matters of Commitments

As of the balance sheet date, the irrevocable purchase of long-term assets contracts signed by the Group is as follows:

	<i>RMB</i>	
	<b>Closing balance</b>	Opening balance
Contracted but not confirmed in the financial statements Purchase		
– Build long-term asset commitments	<b><u>4,572,868,495.41</u></b>	<u>4,492,127,667.04</u>

### 2. Contingencies

The Group does not have any significant contingencies that need to be disclosed.

## (XIII) OTHER SIGNIFICANT MATTERS

### 1. SEGMENT REPORT

#### (1) *Basis and account policy of segment report*

According to the internal organizational structure, management requirements and internal reporting system of the Group, the Group's operating activities are divided into five operating segments. Based on the operating segments, the Group has identified five reporting segments, namely the PV glass segment, the household glass segment, architectural glass segment, float glass segment and mining products segment. These reporting segments are based on product categories. The main products provided by each of the Group's reporting segments are PV glass, household glass, architectural glass, float glass and mining products. The management of the Group regularly evaluates the operating results of these segments to determine the resources to be allocated to them and to evaluate their performance. The evaluation does not include the review of the assets and liabilities of the operating segments.

Segment report information is disclosed in accordance with the accounting policies and measurement standards adopted by each segment when reporting to management. It has confirmed and measured segment report information in accordance with China accounting standards.

## (2) Segment report information

RMB

	Amount in the current period						Mutual offset among segments	Total
	PV glass	Household glass	Architecture glass	Float glass	Mining products	Other business		
Segment operating revenue	9,659,149,137.28	145,035,852.73	237,702,852.85	182,678,031.15	264,539,551.02	206,890,072.41	-	10,695,995,497.44
